

ADRIANA SOLANO LUQUE

President, Consejo Colombiano de Seguridad

I am a Business Administrator with an Executive MBA from INALDE Business School, specializing in Insurance and Social Security. My strengths include leadership and management skills, as well as experience in leading company mergers and overseeing insurance sector companies. I am skilled in designing and executing strategic plans that comply with management indicators. With my excellent leadership skills, I can guide teams to achieve desired outcomes and maximize their performance.

EXPERIENCE

Colombian Safety Council

Executive President

April 2017 – Nowadays

I guide the organization's strategy. I am known for my collaborative leadership style in establishing a risk management culture in Colombia. I have successfully improved the entity's strategic direction by creating initiatives and forming technical partnerships that facilitate the adoption of best practices. My efforts have contributed to transforming the country into a resilient, safer, healthier work environment.

Global Seguros de Vida S.A.

Operations and Insurance Manager

June 2007 – January 2017

As the manager, I oversaw the operational, administrative, and technical processes for all of the company's products, which included Educational Insurance, Life Annuities, Individual Life and Group Life Insurance, Voluntary Pensions, Occupational Risks, and Disability and Survivors' Insurance. I made sure that all policies were in line with the Strategic Plan and adhered to current regulations while also implementing continuous improvement practices.

I analyzed sales data and monitored product profitability, updated support applications, centralized operations, implemented management indicators, led the implementation of Salesforce for the CRM system, and led the technical and operational aspects of a merger.

Royal & Sun Alliance

Director of Customer Service

April 2003 – June 2007

As part of my role, I created and executed service offerings for policyholders while ensuring compliance with company standards and policies. My efforts resulted in optimal outcomes for product needs, company requirements, customers, and intermediaries. Additionally, I developed new procedures for managing the savings component of Individual Life policies and improved service standards for these policyholders. I also managed the benefits for Life Annuities policyholders and introduced value-added services that set our company apart from competitors. In managing claims for Disability and Survivors Insurance (pre-retirement insurance), I followed legal regulations and company policies. To implement the service strategy, I aligned with the company's Customer Management program and conducted

customer value analysis, segmentation, and profile identification to develop effective service strategies.

Royal & Sun Alliance Insurance

Administrative Coordinator

July 2001 – April 2003

I created and put in place a management system for Educational Insurance across the country, which caters to the requirements of both intermediaries and customers while aligning with the company's policies and product features. Additionally, I established a financing program for Educational Insurance policies.

Royal & Sun Alliance Insurance

Financial Assistant

January 1998 – July 2001

I was responsible for overseeing the national treasury position reconciliation, which involved coordinating payments to third parties, collecting premiums, and reconciling bank accounts with branches. Additionally, I negotiated foreign currency transactions to ensure timely payments to parties abroad and increase profitability. I actively participated in projects aimed at optimizing financial operations and improving internal procedures within the Financial Management department. Moreover, I maintained relationships with financial institutions, stockbrokers, and other entities involved in the company's operations.

EDUCATION

Executive Master in Business Administration (MBA)

INALDE Business School (Bogotá)

2011 – 2014

Insurance and Social Security Specialist

Universidad de La Sabana (Bogotá)

2003-2004

Business Administrator

Universidad de La Sabana (Bogotá)

1993-1998

2. Curriculum Vitae

2.1 PLEASE ATTACH YOUR CV OR RESUME TO THIS SELF-NOMINATION FORM.

3. Questionnaire

3.1 Please indicate any past or present affiliations and accomplishments related to Disaster Risk Reduction / Prevention / Resilience / Corporate Social Responsibility (CSR) / Environmental Social Governance (ESG) (max 200 words)

The Colombian Safety Council (CCS) is constituted as an open association of a technical and non-profit nature that has been the benchmark for the Colombian industry in safety, health at work, environmental protection, and sustainability for 69 years, through technical strength, development of knowledge, dissemination of good practices and innovation, elements that raise the levels of competitiveness of the Colombian business community, with collective benefits for workers, their affiliates, and society. In 2013, the CCS promoted an initiative of the private sector and the national government of Colombia signing the first Memorandum of Understanding to contribute to Disaster Risk Management from all industries, and in 2015 with the start of the ARISE initiative, the ARISE Colombia network was formally formed.

From the beginning of my professional experience, I have promoted permanently the strengthening of knowledge and risk management issues in the private sector as an essential mechanism for business continuity. In this sense, from the Presidency of the CCS, I have promoted the development of projects and initiatives with different public and private entities, about various aspects of disaster risk preparation, response, and reduction. I represent the CCS in the National Committee for Disaster Risk Reduction and the Secretariat of the Technical Commission for Technological Risks, led by the National Unit for Disaster Risk Management (UNGRD in Spanish). Likewise, I lead the team of professionals that work in the National emergency line of Toxicology in agreement with the Ministry of Health and Social Protection from the Chemical Safety Information Center (CISPROQUIM in Spanish), through which response and advice are given to toxicological, technological, and toxin emergencies.

3.2 Please specify if you have the decision-making and support capacities for ARISE within your company relating to at least one the four ARISE focus areas (SME resilience, investment, insurance, resilient infrastructure) at

a) Senior level (max 100 words each)

As president of the CCS, I have the support and decision-making capabilities for the prioritized ARISE focus. From my role, I have technical, logistical, and financial support capabilities focused on disclosing and supporting aspects related to management in the value and supply chains of organizations as the greatest strength among the stakeholders involved within the organization that I lead. The CCS is an organization that brings together a total of 745 affiliates (456 companies and 289 natural persons), with a high percentage of MSMEs. From my role, I have a permanent and direct

2023/05/31	<p style="text-align: center;">ARISE Board Elections Self-nomination Form (deadline for submission: 21 June 2023)</p>	
PU-BENF		
Revision: 1		
Page 3 of 4		

relationship with the insurance companies on risk issues, and from the CCS we impact nearly 78,000 people each year through advice and permanent training on these issues. Likewise, with the support of the Technical Direction, I lead the different sectoral work committees, such as hydrocarbons, construction, agribusiness, and mining, among others, giving priority to issues related to resilience and business continuity, based on adequate knowledge and risk management.

b) Technical level (max 100 words each)

At the level of professional experience, I have 22 years of high experience in the Insurance sector in Educational Insurance, Life Annuities, Individual Life and Group Life, and Voluntary Retirement Pay, among others, for which, at a technical level, my other great contribution is ARISE's focus on insurance. Likewise, I led the ARISE Network for the last 6 years in Colombia, maintaining relationships of mutual support with the UNGRD and the different members of the networks in the region.

Likewise, the CCS, as the focal point of ARISE in Colombia, since joining the network, I have permanently management an additional technical and human team that supports the different activities, among which there are expert personnel in areas of safety and health at work, environment, sustainability, chemical risk, process safety, management systems, training, audits, among other aspects related to risk management in organizations.

3.3 Please specify if you have the decision-making and support capacities within your company relating to other key areas such as Early Warning or Public-Private Partnership at national or local level (100 words)

From the position of the Presidency, I have the capacity for decision-making and support, mainly related to public-private associations at the national level. In this regard, the CCS from my leadership has maintained technical support agreements with the Ministry of Health and Social Protection to support the national emergency line of Toxicology, and the Ministry of Labor in two agreements for the development of technical inputs like the Prevention Major Accidents (PPAM), Safety management system for the prevention of major accidents (SGSPAM), Individual maximum risk level standard, Emergency and Contingency Plan (PEC), among others.

3.4 Indicate if your company is affiliated with / member of any other global private sector networks such as the UN Global Compact, World Economic Forum (WEF), World Business Council for Sustainable Development (WBCSD) International Chambers of Commerce (ICC), or other private sector network, including of other UN agencies (please specify) (max 100 words each)

The Colombian Safety Council (CCS), together with Acoplásticos and ANDI since 1993, are the coordinating entities in Colombia of the Integral Responsibility initiative (Responsible Care®), which is the voluntary initiative of the global chemical industry that, beyond legislative and regulatory compliance, committing to companies, national associations of the chemical industry to continuously improve knowledge and performance in different fields. Also, the CCS is an ally of different international organizations such as the Latin American Association of Safety and Hygiene at Work (ALASEHT), ACGIH®, the National Safety Council in the USA, and the National Fire Protection Association (NFPA) and Global Compact.

Revision: 1		
Page 4 of 4		

3.5 Please list 3 goals which you would aim to achieve as Board Member of ARISE, specifically within (max 100 words)

a) your 1st year

b) long term

1st year

1. Propose mechanisms to strengthen the involvement of companies in the insurance industry, focusing the dialogue on the generation of mutual aid mechanisms that encourage awareness of the associated risk and the creation of new insurance mechanisms.
2. Manage financing alternatives that can contribute to the work of UNDRR and the ARISE networks for their operation and functioning in compliance with their objectives.
3. Propose a strategy that seeks to involve high-income companies with ARISE to strengthen value and supply chains that involve other sizes of companies.
4. Generate strategies to give the ARISE Network a better position in Global terms, considering the ability to UNDRR influence.

Long term

1. Manage the technical and scientific interaction between networks at a global level, presenting joint projects that provide solutions to common problems in the private sector.
2. Establish joint work with other UN private sector networks that support issues on climate change, education, and the strengthening of SMEs, among others.
3. Support public-private partnerships to strengthen the capacities of the private sector on issues of resilience and business continuity.

Note:

Please consider the responsibilities for Board members and the parameters for a Board member to be designated inactive as specified in the Board elections Standard Operating Procedure (SOP).

CV OF BRIG (Dr) B.K. KHANNA, SM, VSM **

Present and Past Affiliations.

1. Brig (Dr) BK Khanna is Lead Senior Consultant (DM) in Federation of Indian Chambers of Commerce and Industry (FICCI), since 2003 and CEO ARISE INDIA Network since 18 March 2019. He is Co-Chair of FICCI ARISE Task Committee. He represents ARISE in Stakeholders Engagement Mechanism (SEM) since November 2019. He is Member of the Advisory Group of SEM since 2019. He is Member of APP (Advisory Committee for Policy and Projects) of UNDRR Regional Office for Asia and the Pacific (ROAP). He is Working Chairperson and Director of Integrated Institute of Rural Development, Shimla, Chairperson of India Skill Development Council, Gurgaon, Director of DM Skilling Council and Director (Technical), All India Fire and DM Council, Gurgaon - all honorary positions. He was engaged by Ernst & Young as Climate Change and DM Consultant for its premium National project in Punjab. He is Founder Senior Advisor-cum-Senior Specialist (Policy, Plans, Training and Capacity Development) in National Disaster Management Authority (NDMA), Govt of India (Apex body on DM in India) for 9 years. Before that he was Senior Faculty at National Institute of Disaster of Management, Govt of India for two years. He served Indian Army for 32 years and Border Security Force for 6 years. He took part in 3 Wars and 8 Counter Insurgencies. He is Expert Panelist on more than 15 Indian TV channels for DM, Climate Change and Security matters.

Work Experience in DM and Climate Change

2. In FICCI he is involved in advising Govt of India on DRR in Private Sector, as part of FICCI DM Committee, on all aspects relating to MSMEs, advise ARISE INDIA Members on risk informed investments and resilient infrastructure, conduct mock exercises and increase Membership of ARISE INDIA. In his capacity as Senior Advisor, NDMA, he was involved in formulation of India's National

DM Policy, National Disaster Response Plan, and National Guidelines on making State Disaster and Crisis Management Plans. He was Core Committee Member for evolving National Guidelines on Chemical (Industrial) Disasters, Earthquakes, Floods, Cyclones, Role of Private Sector in DM, School Safety, Chemical (Terrorism), Fire Services, Civil Defense, CBDM and Incident Response System (IRS). He was involved in planning and implementation of DM Plans for Maha Kumbh Mela (Festival), (for managing crowd of over 8-10 million at a time) He has participated in various capacities in managing Orissa Super Cyclone 1999, Bhuj Earthquake 2001, Indian Ocean Tsunami 2004, J&K Earthquake 2005, Floods in Assam, Bihar and Orissa in 2006-2012, Sikkim Earthquake 2011, Uttarakhand Flash Floods 2013, J&K Floods 2014, all cyclones including Biparjoy June 2023 and manmade disasters, like Radiation Accident at Mayapuri Scrap Market in New Delhi, epidemics like Nipah virus 2018, Zika Virus 2017, Chikungunya, dengue and Aviation flu 2006 and COVID 19 .

Core Competencies – Formulation of DM Plans and Capacity Development

3. His core competencies are DRR in Private Sector, CSR, inter relationship between DRR and climate change and synergy between national and state policy and strategies, for mitigating their effect. His expertise also lies in planning, formulating and reviewing DM plans at the National, State and district levels, in hospitals, at religious places, in educational institutions, in industrial units and in international/national events. He has formulated/reviewed DM/Crisis Management Plans of 5 Indian States and 87 multi hazard Districts. He is expert in Crowd Management at Religious Places and has made DM Plans of 5 most famous religious places and 8 international sporting events. He has reviewed DM Plans of 7 Union Ministries, 2 International Airports, 2 Metro Rail Systems and 10 multi-specialty hospitals. He also carried out triple audit (DM, Security and Fire Safety) in over 1048 schools and institutional buildings like NDMA and FICCI.

4. He is pioneer in conduct of table top and mock exercises in India and has conducted over 2130 mock exercises in all 37 States/UTs, 497 districts, 1649 Most Accident Hazard (MAH) industries/ MSMEs, 1048 schools, 38 hospitals and in other places like airports, ship breaking yard, etc. He has also conducted UNISDR sponsored mock exercise on Earthquake involving 21 countries and 15 Indian States in Agra. This may be a Guinness Book of Records for an individual to plan and conduct so many and so varied mock exercises at various levels.

Teaching and Field Experience

5. Brig Khanna has rich experience in imparting training on DM, developing leadership traits at various levels, capacity building in educational institutions, community, first responders and in hospitals. He is visiting faculty in 37 universities/professional training institutions in India. At UN level he spoke at GP for DRR - 2019 at Geneva and Bali 2022 and at the RPs at Ulaanbaatar and Brisbane. He has a versatile personality with experience in the field, including war, counter insurgency and DM and in academics.

He is associated with various international and national NGOs, and has reviewed their projects on behalf of their international donors, which has given valuable inputs on awareness on DM at the field level.. He was associated with innovation of COVAXIN vaccine, Rapid Testing Kit and SHYCOCAN gadget for protection against all types of flus. MoU executed with JBP, Japan for sharing good practices.

Educational Qualifications and Publications

6. Brig Khanna did his Masters in Science in Psychology, Doctorate (Ph.D) in 'Internal Threat to India-Policy and Options' and Doctorate of Literature (D. Lit) on, 'Challenges of Managing Disasters in Border areas of India'. He has done MBA in International Trade and is a Certified Master Trainer of Trainees and Master Trainer for Simulation Exercises from Federal Emergency Management Agency (FEMA), USA. Besides writing 275 articles on Climate Change, Crises Management, DRR/DRM and Security related subjects, in various international/ national professional journals, he has written three books on DM and Climate Change. His two chapters on climate change have been published in the Reference Source, "Environmental Sustainability and Climate Change Adaptation Strategies, published by IGI Global, USA in December 2016. He has participated as a panelist in numerous (lost count of it now) international and national Seminars, Conferences and Workshops on DM, Crisis Management and Defense matters, some of them were organized by World Bank, UNISDR, USAID, FICCI, CII, and ASSOSAM & PHD Chambers of Commerce.

National Bravery/Recognition Awards/Felicitations

6. The President of India recognized his Services to the Nation for bravery during war and for exceptional Services, by decorating him eight times including with Sena Medal (for Bravery) & Vishisht Seva Medal and Bar (Two times), for showing exceptional courage, Chief of the Army Staff Commendation, Army Commander Commendation (two times) and DG BSF Commendation (two times). The national Govt & State Govts have also commended him numerous times for contribution in field of DM & Climate Change. Govt of Bangladesh honored him with title of, "Freedom Fighter", of Bangladesh in Dec 2019.

Conclusion

7. He is a visionary and can develop strategies and implement them from macro to grass root levels. Having vast experience at local and national levels and having worked closely as shadow to a decision maker at ARISE Global, he now has offered his services to take active leadership role at the Global level, devoting full time for implementation of Sendai Framework for DRR. He has innovative & out of box solutions for implementation of Action Plans of ARISE, esp. for MSMEs and risk informed investments. He has no liability. He enjoys playing golf. His two sons are settled well abroad and his wife is a freelance Disaster Manager, having done her MBA and Ph.D in DM.

2. Curriculum Vitae

2.1 PLEASE ATTACH YOUR CV OR RESUME TO THIS SELF-NOMINATION FORM.

3. Questionnaire

3.1 Please indicate any past or present affiliations and accomplishments related to Disaster Risk Reduction / Prevention / Resilience / Corporate Social Responsibility (CSR) / Environmental Social Governance (ESG) (max 200 words)

I am a leader focused on leveraging public-private partnerships, building national and international strategies to increase local capacity for disaster risk reduction, and prioritizing technology to achieve equitable outcomes. SPIN Global is a public benefit company where I lead the Business and Industry and International practice areas to shape DRR strategies. In the ARISE-US Board, I serve as the Communications Director, co-lead the Equity program, and serve as the Membership focal point. As a Colombian citizen, I bring an international perspective to U.S initiatives to achieve more equitable outcomes and build community resilience.

I have experience with the design and delivery of Department of Homeland Security (DHS) trainings and courses and shaping national disaster-oriented Private-Public Partnerships (PPPs) guidance.

I conduct assessments of community resilience, support development of emergency management plans and continuity of operations plans and develop training and exercises in English and Spanish in the Planet Ready.com platform. I currently work on a groundbreaking technology project focused on building a global community of practice around equitable decision intelligence for disaster management. I supported the development of the first world's open-source equitable decision intelligence model for emergency management.

3.2 Please specify if you have the decision-making and support capacities for ARISE within your company relating to at least one the four ARISE focus areas (SME resilience, investment, insurance, resilient infrastructure) at

a) Senior level (max 100 words each)

Yes, Joel Thomas, SPIN Global's CEO, is a committed supporter of ARISE and encouraged me to apply for the ARISE global board position. He has also committed company resources to support our engagement with ARISE. We have presented during multiple ARISE meetings and symposiums on themes regarding PPPs and private sector-led initiatives for DRR. We have attended four UN Global Platforms and have interacted with multiple ARISE network leaders. Our CEO also attended the first ARISE launch in Boston, MA. As a company, we actively encourage other private sector organizations to join ARISE.

2023/05/31	<p style="text-align: center;"> ARISE Board Elections Self-nomination Form (deadline for submission: 21 June 2023) </p>	
PU-BENF		
Revision: 1		
Page 3 of 4		

b) Technical level (max 100 words each)

I will serve as a technical expert on programmatic design, policymaking strategies, and equitable design and implementation of ARISE/UNDRR programs. My efforts will involve our company leadership to leverage resources, connections, and expertise to engage the private sector. For example, I was selected to speak at the III ARISE Regional Forum in my hometown Bogotá Colombia, where I will discuss the use of technology for DRR and community engagement strategies. In the past, we were also selected to speak at Geneva as part of the UNDRR Innovation Platform and discussed the Planet Ready.com platform, which is a DRR tool.

3.3 Please specify if you have the decision-making and support capacities within your company relating to other key areas such as Early Warning or Public-Private Partnership at national or local level (100 words)

Yes, SPIN Global has a wealth of expertise in developing guidance, policies, training programs, and exercises specifically tailored to foster effective disaster-oriented PPPs. Additionally, our team provides comprehensive program management support to facilitate the development of private sector-led initiatives and national guidance. We are committed to leveraging our experience and knowledge to enhance collaboration and resilience-building efforts between the public and private sectors. In addition, our CEO Joel Thomas is a NATO U.S civil expert on Early Warning and PPPs.

3.4 Indicate if your company is affiliated with / member of any other global private sector networks such as the UN Global Compact, World Economic Forum (WEF), World Business Council for Sustainable Development (WBCSD) International Chambers of Commerce (ICC), or other private sector network, including of other UN agencies (please specify) (max 100 words each)

Yes, SPIN Global is affiliated with the following:

- The Private Sector Emergency Management Association (PSEMA)
- World Business Council for Sustainable Development (WBCSD)
- US Chamber of Commerce
- World Economic Forum (WEF)

Revision: 1		
Page 4 of 4		

3.5 Please list 3 goals which you would aim to achieve as Board Member of ARISE, specifically within (max 100 words)

- a) your 1st year**
b) long term

- In my first year, my goal is to lead a project aimed at increasing representation of women in DRR and encourage their active participation in ARISE. I am determined to identify avenues for empowering women, young professionals, and foster gender balance across networks.
- If appointed, I will serve as a liaison, actively engaging with network leaders to gain insights into successful initiatives and areas requiring improvement. These insights will inform my role in organizing the Annual General Meeting (AGM).
- In the long term, I aim to lead development and adoption of disaster-oriented PPP guidance, training, and exercises for ARISE members.

Note:

Please consider the responsibilities for Board members and the parameters for a Board member to be designated inactive as specified in the Board elections Standard Operating Procedure (SOP).

Claudia Carolina Díaz Yáñez.

David Greenall, KPMG International

Global Managing Director
Climate Risk, Decarbonization,
Nature & Biodiversity, and
Adaptation

Education, licenses, certifications

- University of Ottawa, B.A.
(Hons) in Urban Planning
- York University, M.A. in
Environmental Management
- ENVISION SP certified

Background

David has 25 years of experience assisting large corporate, investor and public sector clients to position their organizations in order to be successful in a zero carbon, climate resilient and nature positive future. His physical climate risk and decarbonization strategy, risk & disclosure experience spans clients across Canada, U.S., Caribbean, South America, Australia, and Europe - he has helped corporates and financial institutions (banks, pension funds, institutional investors) to orient capital flows towards resilient investments by assisting them to understand, quantify and price physical and transition-related climate and nature risks, adopt and implement technical enablers (data, modelling, analytics, climateTech), develop climate credit risk analysis and diligence tools, design innovative low-carbon / DRR / resilience financial products, and implement effective governance, accountability and change frameworks to enable integration of climate change in the culture and decision-fabric and apparatus of organizations.

Prior to joining KPMG he held the following roles:

- Managing Partner – Americas & Caribbean – VIRIDI GLOBAL
- Chief Climate Officer – ClimateXBI
- Global Lead – Banking & Capital Markets – GIST IMPACT
- Senior Director & Marketplace Leader – PwC Sustainable Business Solutions
- Senior Director & Marketplace Leader – Deloitte Sustainability & Climate Change
- Principal Associate – Energy, Environment & Sustainability – The Conference Board

From 2017 to 2021, David was the founding Chair of ARISE Canada – the UN private-public collaborative platform for disaster risk reduction and climate resilience (Hyogo Framework for DRR). He has previously led industry leadership efforts by the Canadian Banking Association and G7 Investor Leadership Initiatives to develop industry-standard guidance and technical tools for banks and asset owners to conduct climate change risk analysis and integrate insights into investment strategy, and to conduct meaningful climate disclosures in alignment with the TCFD.

David sits/has participated on numerous sustainability and climate change advisory boards and committees including:

- International Emissions Trading Association – Integrity in Digital Climate Markets Taskforce
- World Bank – Climate Action Data Trust – Expert Advisory Committee
- National Roundtable on the Environment and the Economy - Expert Panel on Climate
- Task Force on Nature Related Financial Disclosures – Advisory Group
- Climate Disclosure Standards Board – Expert Technical Committee (Financial Accounting & Reporting; Water Accounting & Reporting)
- ISO Expert Technical Committee 207 (Climate Finance Standard – ISO14097)
- Climate Financial Risk Management Initiative – 1-in-100 Initiative
- Carbon Bond Initiative - Hydropower Standard Industry Working Group
- Global Water Forum - Climate-Related Precipitation Extremes – Expert Committee
- Climate Chain Coalition (Blockchain/DLT) – Adaptation Working Group

In 2004, David founded the Carbon Disclosure Project (CDP) in Canada, where he led efforts by Canada's leading banks, pension funds and institutional asset owners to leverage the power of measurement and information disclosure to improve the management of climate change risk within Canada's largest publicly traded companies.

David was named a Top 40 under 40 (Ottawa) business leader in 2010 in recognition of his contributions to the community, thought leadership and business success.

3. Questionnaire

3.1 Please indicate any past or present affiliations and accomplishments related to Disaster Risk Reduction / Prevention / Resilience / Corporate Social Responsibility (CSR) / Environmental Social Governance (ESG) (max 200 words)

Most recently, I've joined the Board of a non-profit that focuses on climate adaptation and managed retreat.

As an active contributor to ARISE and ARISE-U.S. Network tools and projects, I've co-developed, authored, co-authored, and helped research, design and guide several tools, symposia and initiatives. In the past, these included the UNDRR Resilience and the Commercial Buildings Scorecard. I currently serve on ARISE teams for the Resilience Action Guide and the RSTAG Tech Research Project. I'm also leading a Work Group and serving as a Liaison to ARISE on an MCDC J7 project for knowledge sharing.

I use speaking engagements, workshops and private training sessions to educate companies and individuals in the integration of the Sendai Framework, the SDG's and the Climate Agenda. The approaches principally focus on futures thinking, risk reduction, and resilience capacity building. This also involves coaching and connecting individuals or organizations that can move the needle on prevention, adaptation and/or response by combining their strengths, especially across disciplines.

While at DuPont, I led sustainability life cycle assessment projects resulting in lower energy use across packaging supply chains; and models for industrial take-back and recycle/reuse programs that reduced waste streams, with both delivering triple bottom line results.

3.2 Please specify if you have the decision-making and support capacities for ARISE within your company relating to at least one the four ARISE focus areas (SME resilience, investment, insurance, resilient infrastructure) at

a) Senior level (max 100 words each)

As an independent advisor and sole proprietor, I have the decision-making and support capacities across the four priority areas.

COMPETENCIES

Strategic and Scenario Planning, Resilience Thinking, Transformative Change, Innovation, Product & Service Development, Research, Corporate Risk Reduction, Resilience Capacity Building, Stakeholder Engagement & Collaboration

PROFESSIONAL CAREER

Resilience Advisor, Debbra A.K. Johnson, LLC (DAKJ, LLC), October 2014 to Present:

Provide organizations and individuals with knowledge, guidance, education and tools for disaster risk reduction/resilience, climate adaptation, and sustainable development. Team with a global network to assess and deliver tools and expertise for risk reduction and transformational change in line with the Sendai Framework, Sustainable Development Goals, and the Paris Agreement.

CAREER HISTORY

Advisor, Corporate Alliances, Coastal Risk Consulting, August 2015 to February 2017:

Provide guidance and advice in Identifying, scoping and proposing projects that provide corporate clients and business partners with the means to measure and reduce their risks from flooding through the use of geospatial data and analytics. Success relies on depth and breadth of multi-decade asset exposure and vulnerability assessments and improved forms of systems thinking and communications resulting in accelerated decision making, resilience capacity building, and improved stakeholder and organizational alignment.

Sr. Consultant, DuPont Sustainable Solutions, DuPont de Nemours, Inc., 2010 - 2014

Recruited to the Sustainable Solutions Practice Development team and recognized for depth and leadership in setting corporate best practices and methods in reaching corporate sustainability goals. Managed practice development working groups, contributed to new market development and first-of-a-kind client engagements especially related to operational excellence and disaster risk reduction/resilience and climate adaptation.

Leadership Roles, DuPont de Nemours, Inc., 1998 – 2010

- Sustainability Mgr. and Sr. Marketing Consultant, Packaging Graphics, 2005 - 2010
- Market & Product Development Mgr., Consumer Safety Growth Initiative, 2002 – 2005
- Global Commercial Marketing Manager, DuPont™ Surfaces, 2000 - 2002
- North America Marketing Communications Manager for DuPont™ Surfaces, 1998 - 2000

International Marketing Director, COLE-HAAN (Subsidiary of Nike®), Yarmouth, Maine, 1994 – 1998

Mahmoud AlBurai is currently serving as President of FIABCI Emirates and senior advisor in Dubai Government mandated to work on a plan to make Dubai more competitive. Mahmoud is also working as senior advisor at Dubai Police working in Dubai Resilience hub to strengthen Dubai resilience. In his work in Dubai Police, Mahmoud led creating capacity building program to build competencies of resilience officers in private and public sectors.

Mahmoud leads Middle East Cities Centre at the American University in Dubai working on research and development related to field of sustainability and competitiveness. In this capacity, he led World Urban Campaign and organized 6 urban thinkers campuses focusing on sustainability and resilience of Middle East Cities.

He is also Chairman of UNDRR ARISE network in the UAE. In this capacity Mahmoud led the board in developing real estate resilience tool, launch Covid rehabilitation program for post covid and work with public and private sector to strengthen SME resilience through swimming with sharks series of workshops at the capital club.

Before this role Mahmoud has served as the CEO of Dubai Real estate Institute for 10 years in which the institute graduated 80,000 real estate professionals from the region. He was chosen in 2021 as one of 10 City Changers by the World Urban Campaign of the UN recognizing his role in lobbying stakeholders to advance SDGs and deal with climate change.

He is also the Vice President of International real estate federation, FIABCI Arabic Countries since 2016, Chairman of FIABCI Emirates and sits on the board of International Real estate Federation, the world largest global real estate network of more than 1.5 million associate members. Before that he served on the board of International Real estate Society (IRES) for 5 years and the board of National Association of Realtors(NAR), 1.3 million member real estate network based in Chicago for the years 2019-2020.

He served as the Chairman of UN Global Compact UAE from 2015-2020 and represented MENA region in UN Global Compact advisory board for 2016-2018. In his role as UN Global Compact MENA representative led many SDG's driven initiatives. He started youth

ambassadors programs in seven UAE universities recruiting over 150 youth, train them to help businesses become more sustainable. He also led establishing Women empowerment principles platform in the UAE with 60 companies signing on WEPs commitment. To promote SDGs among business, Mahmoud launched SDGs pioneers UAE celebrating SDGs success stories of private and government organizations. Mahmoud has been selected to be FIABCI representative at the United Nations Economic Commission for West Asia (UNESCWA) and UNECE (Geneva).

To advance his work on SDGs, Mahmoud started his Camps and Dreams NGO and documentary to shed light on talented refugees in different refugees camps in Middle East, Europe, Asia and Africa and link them with institutional partners for jobs and education opportunities.

Mahmoud is currently leading Government committee in the capital club, a business club of influential financial institutions in the Middle East. He led VCs for Good and Startups for Good initiatives in the club

Recently Mahmoud established his Think Tank in Geneva under the name of Middle East Sustainable Development Institute to lobby governments, businesses and communities to action on SDGs in the Middle East. His main role is to lobby private sector in the region to be actively involved in SDGs, during his presidency, UAE local network became the fastest growing network internationally. Moreover, Mahmoud leads the affordable Housing working-group at World Economic Forum. Mahmoud also serves as an advisor-MENA region at Happy City Lab, headquartered in Canada which works on integrating happiness into urban design.

Prior to his position in Dubai Real estate Institute, Mahmoud worked as Senior Director of Real estate Sector development at Real estate Regulatory Authority of Dubai and few years as a Development Associate Manager at Dubai holding.

Mahmoud completed his bachelor's degree in engineering at the American University before continuing on to earn his Master's in Real Estate from National University of Singapore. Mahmoud completed his MBA in Finance from his alma mater, American University of Dubai in 2010 and Master of Cities at London School of Economics and Political Science (LSE) in 2019 and DBA at Grenoble école de management in France in 2020.

3.2 Please specify if you have the decision-making and support capacities for ARISE within your company relating to at least one the four ARISE focus areas (SME resilience, investment, insurance, resilient infrastructure) at

a) Senior level (max 100 words each)

2023/05/31	<p style="text-align: center;"> ARISE Board Elections Self-nomination Form (deadline for submission: 21 June 2023) </p>

PU-BENF		
Revision: 1		
Page 5 of 6		

2. Private sector hat: He is VP of FIABCI (international body of 1.4 million members). In FIABCI, the candidates leads Public private partnership and UN related work on sustainable cities
3. Academia hat: Mahmoud leads Middle East Cities center in American University in Dubai. The center develops research on sustainability and resilience of cities while working on professional development programs. Such programs can be good value added to ARISE networks.

3.4 Indicate if your company is affiliated with / member of any other global private sector networks such as the UN Global Compact, World Economic Forum (WEF), World Business Council for Sustainable Development (WBCSD) International Chambers of Commerce (ICC), or other private sector network, including of other UN agencies (please specify) (max 100 words each)

UN Global Compact, UNHabitat, and World Economic Forum are three important organizations that we work closely with them.

Organizations that candidate works in worked with

1. UNhabitat: organizing 6 urban thinkers campuses and launching Middle East WUC
2. World Economic forum: focus on affordable housing and resilient cities(research and advocacy).
3. UNGC: led establishing UAE UNGC which is one of largest networks internationally
4. Capital club and CEO club: CEOs club with more than 5000 CEO globally. The candidate leads the government private sector committee in the club to help making sure that private sector voice is heard

3.5 Please list 3 goals which you would aim to achieve as Board Member of ARISE, specifically within (max 100 words)

- a) your 1st year
- b) long term

The candidate has a clear plan on his contribution to take ARISE to the next level

In the short run, the focus will be on

- Membership growth: expanding membership of ARISE to get more influential private sector companies capitalizing on networks and professional bodies
- Capacity building: developing accredited global capacity building programs to help train champions in the private sector to lead resilience agenda
- ARISE annual meeting (Private sector resilience forum): annual event where ARISE networks meet to exchange knowledge
- Best practice forum: a forum done for private sector to share best practices in resilience and business continuity. Such annual forum will help spreading knowledge and speed up private sector participation

2023/05/31	<p style="text-align: center;"> ARISE Board Elections Self-nomination Form (deadline for submission: 21 June 2023) </p>	
PU-BENF		
Revision: 1		
Page 6 of 6		

On the long run , works need to be done on

- Resilience accelerator: partnership with private sector to fund accelerating technology companies who are active in resilience domain. Funding such technology will help to make our cities safer and more resilient.
- Real estate Resilience Tool: fund awareness and implementation program of real estate resilience tool through 1.4 million FIABCI network
- ARISE mentorship program
- Private sector award: to promote best practices in private sector , such award will help SME resilience and provide platform to share best practices
- Resilience fund (private sector): work with leading private sector companies to fund global resilience programs

Note:

Please consider the responsibilities for Board members and the parameters for a Board member to be designated inactive as specified in the Board elections Standard Operating Procedure (SOP).

BIOGRAPHY

Henry Ee is the Founder and Managing Director of Business Continuity Planning Asia (BCP Asia).

With more than 25 years of Business Continuity, IT-Disaster Recovery and Crisis Management experience, Henry has undertaken over 500 projects in advisory and training roles, spanning across Asia Pacific, including Singapore, Malaysia, Brunei, Indonesia, Philippines, Sri Lanka, Hong Kong, Macau, Saudi Arabia, Australia, China and Thailand; covering a wide span of industries from Healthcare, Banking & Finance, Logistics, Manufacturing, Telecommunication, Transportation, Educational to Public Sector.

Henry has also trained and guided over 5000 professionals across Asia, some of them going on to attain their professional BCM certification.

Before starting the company in year 2000, he gained practical experience as an end-user through senior position appointments as Regional BCP Manager in 2 international banks, ABN AMRO and JP Morgan Chase, where he rolled out comprehensive regional BCP programs and rigorous trainings & exercises. In the course of his career, Henry successfully activated the recovery plans for various scenarios such as strikes, Y2K, 911, SARS and H1N1. This is where he developed his passion in the areas of Business Continuity and Resilience.

The first Asian to be elected to the Board of BCI (UK), Henry was later awarded with the Lifetime Achievement Award by BCI in 2010. He also contributed to the development of standards since 2007, as member of the Standards Committee for SS540:2008 Singapore BCM Standard, BS25999, SS507 Singapore IT-DR standard, ISO22301, BC standard development for ASIS (US) and China BCM standard. Most recently, Henry served as the Technical Expert for Business Continuity/Resilience on the International Organization for Standardization (ISO) on the ISO22301:2019 review. He is also part of the team in drafting the updated Pandemic guide published by Enterprise Singapore.

Henry graduated from University of Essex (UK), with a Bachelor of Engineering with First Class Honours in Electronics Systems Engineering and he is also fluent in English, Mandarin and Cantonese and can conduct trainings and workshops in any of the 3 languages.

2. Curriculum Vitae

2.1 PLEASE ATTACH YOUR CV OR RESUME TO THIS SELF-NOMINATION FORM.

3. Questionnaire

3.1 Please indicate any past or present affiliations and accomplishments related to Disaster Risk Reduction / Prevention / Resilience / Corporate Social Responsibility (CSR) / Environmental Social Governance (ESG) (max 200 words)

Henry is the founder of BCP Asia and he had promoting Business Resilience, business continuity & Disaster Risk management in Asia for more than 25 years. Henry has actively contributed to the industry's wider understanding in disaster risk reduction, preventing and building resilience and ESG. Henry was the first Asian to be appointed as the Business Continuity Institute (BCI) Board member in 2006, and follow by appointed as the Chairman for the BCI Asia Chapter.

Henry also the 1st Vice President for RIMAS(Risk and Insurance manager for Singapore), chairman for IAEM south East Asia Chapter, International Association for emergency management

Henry is also a working group member of the Public-Private Partnership in UNDRR since 2016, looking into Disaster Risk Management in the region. He served as the Technical Expert for Business Continuity & Resilience on the International Organization for Standards (ISO) for the most recent ISO22301:2019 review.

Due to the COVID-19 outbreak, Henry was also part of the team involved in drafting the updated Pandemic guide published by Singapore government agency Enterprise Singapore.

He is currently a professionally certified BC practitioner as FBCI and CBCP by the Business Continuity Institute, UK and Disaster Recovery Institute International, US. As a trainer, he is ACTA certified, and a certified trainer by British Standard Institute (BSI), PECB, EXIN and the BCI (UK).

3.2 Please specify if you have the decision-making and support capacities for ARISE within your company relating to at least one the four ARISE focus areas (SME resilience, investment, insurance, resilient infrastructure) at

a) Senior level (max 100 words each)

Henry actively promote Business resilience to SME and also assist them in building the redundancy, and risk management for their business operation. He also actively speaks in Conference for

6. PROFESSIONAL CERTIFICATES OR MEMBERSHIP IN PROFESSIONAL ASSOCIATIONS

- Since 2018: Member of Space Climate Observatory (UNEP and CNES)
- Since 2019: Member of the United Nations Environment Programme (UNEP) Working Group: Sustainable Urban futures / Integrated Urban Systems / Global Open Platform for Planetary Data Powered by Frontier Technologies
- Since 2021: Member of steering committee adaptation of Global ABC (adaptation for alliance for building and construction) and co-chair of the climate change adaptation technical groups"
- Since 2021: Member of Coalition for Disaster Resilient Infrastructure (CDRI)
- Since 2020: Member of the International Coalition for Climate Resilient Investment (CCRI)
- Since 2020: Member of the World Road Association – Technical Committee: Towards more sustainable road infrastructures
- Since 2021: Member of the standardization committee AFNOR and ISO Sustainable and climate resilient city and territory
- Since 2021: Member of the standardization committee CEN ISO Climate Change adaptation
- 2015 – 2020: Member of the scientific council of the international label "city and resilient building" of the international EFFICACITY program
- 2018 – 2022: President (and co-founder) of the think tank ALTERS-association (Association of Laboratories of Territories, Companies resilient & solidary)
- 2019 2020: Member of task force "UN Science-Policy-Business Forum on the Environment" (UN-SPBF) United Nations Environment Program
- Since 2018: Member of the European Commission Working Group "European framework for strengthening Critical Infrastructure Resilience"
- Since 2019: Member of the Global Risks Workshops (French Ministry of Environment, French Society of "Préventique")
- 2002 2006: Member of the Saharan Multidisciplinary Study Group – Université Mohamed V – Morocco and Mauritania, CRTS (Royal Center for Remote Sensing of Morocco) in Partnership with European research center, Mauritanian university, Moroccans research institute and Malians university.
- Since 2019: Member of the first African Urban Environments Geomatics (by GIS & Remote Sensing) Observatory: University in Yaounde (Cameroun), CNRS (France), Ecole des Mines de Paris (France) & al.
- Since 2020 : Co-chair of Adaptation Working Group of the Global Alliance for Building and Construction (hosted by UNEP)
- Since 2022 : Member of the mission board of climate change adaptation of the European Commission

7. OTHER RELEVANT TRAININGS

- **2021** : Certificate from UNDDR office for Disaster risk Reduction, United Nations office for south south Cooperation, World Health Organization : Build back better : Harnessing south south cooperation and risk reduction planning for resilient and healthy cities in the post COVID19 era for local authorities and urban development practitioners
- **February 2020**: Certificate from the Association of Geographers of Africa (AGCI Côte d'Ivoire - Earth observation program of GMES and AFRICA - UNDP - AFD) : climate change in Sub-Saharan Africa: from vulnerability to adaptation & contribution of earth observation (remote sensing) in the fight against global warming.
- **September 2019**: International summer school Climate change resilience – University Copenhagen in partnership with UNDP/CTCN/ICLEI/ World Bank

11. WORK UNDERTAKEN THAT BEST ILLUSTRATES CAPABILITY TO HANDLE THE TASKS ASSIGNED

Name of assignment or project: Strengthen CCA consideration into urban planning through an approach combining mobility, transport & the built environment

Year: 2022 - 2024

Location: Countries of the “Global South” including countries of Sub-Saharan Africa

Client: ADEME – French Environmental Agency (in partnership with Global Alliance for Building and Construction (hosted by UNEP) and Mobilize Your Cities)

Main project features: Strengthening the consideration of adaptation to CC in multilateral international initiatives on urban planning through an approach combining mobility, transport & the built environment

Position held: Team Leader – Climate Change Adaptation & Flood Hazard

Activities performed: Exposure and Vulnerability Assessment, Resilience Mobility Strategy, Urban Planning Strategy

Name of assignment or project: Risk assessment and design support for climate resilient water services in Borana (Ethiopia)

Year: 2023

Location: Borana, Ethiopia

Client: Global Center of Adaptation (in partnership with African Bank of Development)

Main project features: The objective of this assignment is to provide technical assistance for the identification and design of – infrastructural and non-infrastructural – measures to strengthen the climate resilience of water services for livelihoods and people in Borana region, Ethiopia.

Position held: Team Leader – Climate Change Adaptation & Flood Hazard

Activities performed: exposure and vulnerability assessment and hydrology and hydraulic modeling

Name of assignment or project: Climate and Disaster Risk Assessment of the Dar es Salaam to Isaka Railway line (970 Km) in Tanzania

Year : 2023

Location : Tanzania

Client : World Bank/Tanzania Railway Corporation

Main project features: Carrying out a complete climate and disaster risk assessment (exposure, vulnerability, solutions, emergency response plan)

Position held : Team Leader – Climate Change Adaptation & Flood Hazard

Activities performed: Climate and Disaster Risk Assessment (Collection of relevant data, Diagnosis of risk and vulnerabilities of railway infrastructure and operation services, Development of Climate Resilience Management Plan, Training to the TRC staff and other relevant stakeholders regarding emergencies management and climate resilience), Emergence Preparedness and Response Plan (Elaboration of Emergence Restoration Plan, Development of the framework of the flood detection system for the Kilosa – Gulwe section of the railway line, Development of guidelines on how to manage emergence response and works for railway safety, Training sessions to the TRC emergence staff)

Name of assignment or project: RESILIENT MASS TRANSIT INFRASTRUCTURE in Douala – Cameroon

Year: 2022-2023

Location: Douala – Cameroon

Client: World Bank

Main project features: Inform the technical design of the future mass transit system in Douala, by identifying and prioritizing measures and infrastructure investments for increasing the future system’s climate-resilience using nature-based solutions and capacity building amongst other solutions

Positions held: Urban Flood Resilience Expert

Activities performed: coordination between all the stakeholder, resilience mobility strategy, Urban planning strategy, infrastructure planning strategy; socio-economic vulnerability assessment

Name of assignment: Mission Board member for the Adaptation to Climate Change Mission for The European Climate,

2023/05/31	<p style="text-align: center;"> ARISE Board Elections Self-nomination Form (deadline for submission: 21 June 2023) </p>

Infrastructure and Environment Executive Agency (CINEA) – European commission

Year: July 2022

Positions held: Mission board member

Name of assignment or project: Prospective studies on water resources at departmental level

Year: 2022

Location: Corrèze, France

Client: Conseil Départemental de la Corrèze

Main project features: Development of a decision-support tool for water resources management at departmental level relying on the results of the analysis of existing and future water uses and on the diagnosis of the vulnerability of these uses to climate risks

Positions held: Project Director

Activities performed: Key expert on climate change adaptation / teams leader / Control quality

Name of assignment or project: Measuring the impact in cultural landscapes of the M6 OAP

Year: 2022

Location: N/A

Client: IUCN

Main project features: Proposal for a homogeneous classification of agricultural land cover; Identification of key stakeholders; Production of land cover maps at various time scales; Dashboard creation for each study area; Creation of a “GIS framework” to support the calculation of connectivity and IUCN species indicators

Positions held: co-Team Leader

Name of assignment or project: Incorporating disaster and climate risk management into Albania’s bridge investments and management system

Year: 2022

Location: Albania

Client: World Bank

Main project features: Revise Methodology for the implementation of the consultancy activities; Prepare Guideline on How to Include Resiliency Measures in Albanian’s Bridge Management System; Support the Prioritization of Bridge Interventions and the Inclusion

Positions held: Key expert on climate change adaptation

Name of assignment or project: Resilient mass transit infrastructure in Douala

Year: 2022

Location: Cameroon

Client: World Bank

Main project features: Reviewing background data and studies and confirming the methodological approach; Assessing the risk of investments and identifying critical points and points of disruption; Prioritizing measures and infrastructure investments to increase the resilience of the transportation system around the future BRT; Supporting the preparation of O&M protocols, emergency response plans, contingency plans for BRT and other formal transportation services in case of extreme events; Review of transportation infrastructure construction codes and standards to assess the integration of climate-related risks; Developing training modules on climate change and urban mobility for use in conducting and reporting on studies and in LUTP training

Positions held: Co-team Leader – **Urban Flood Resilience Expert**

Name of assignment or project: Reinforcing Multilateral International initiatives on Climate change Adaptation – MICA

2023/05/31	<p style="text-align: center;"> ARISE Board Elections Self-nomination Form (deadline for submission: 21 June 2023) </p>

Page 8 of 21		

Year: 2022-2024

Location: **Global South including** Asia Countries (India with the Coalition for Disaster Risk for Infrastructures)

Client: ADEME / Global ABC (alliance for Building and Construction)

Main project features: Elaboration of the 10 essential principles of adaptation of urban planning to CC under the prism of the link between mobility and built environment; Elaboration of a guide to include the 10 principles in the GlobalABC; Organization of 3 seminars; development of an awareness campaign

Positions held: Team Leader

Name of assignment or project: Disaster Risk Management – Hanoi line 5

Year: 2021 - 2022

Client: The World bank Group

Location: Vietnam

Main project features: The scope of work is composed of tasks that together will assess the disaster vulnerability, recommend resilience principles and standards for selected sub-systems of Line 5, recommend DRM-informed TOD concept plans, and provide capacity building trainings and workshops

Positions held: Key Expert Climate change adaptation– **Urban Flood Resilience Expert**

Name of assignment or project: Assessment of SEA High-Speed Line resilience to climate change

Year: 2021-2022

Location: Bordeaux

Client: LISEA

Main project features: The main objectives of the mission are i) to acquire knowledge in order to understand and analyse climate change in the geographical perimeter of the SEA high-speed line in the short and medium term, ii) to analyse the impacts of climate change on the availability of the high-speed line, iii) to analyse the potential impacts on the maintenance of the high-speed line, iv) to analyse the potential impacts of climate change on the policy of major maintenance and renewal of the infrastructure.

Positions held: co teams leader and quality control– **Urban Flood Resilience Expert**

Name of assignment or project: Global Upstream Platform on Resilience for Small Islands and Small States

Year: 2021

Location: Dominica

Client: IFC & World Bank

Main project features: Development of a **GIS-based resilience platform** for small islands and small states, applied to the use case of Dominica's critical infrastructures **including nature-based solution and satellite data**

Positions held: Team Leader– **Urban Flood Resilience Expert**

Activities performed: Definition of specific infrastructure interventions to meet resilience targets; Development of a **GIS-based decision support tool** to prioritize critical infrastructure investments; Carrying out market sounding for investments with private sector participation potential.

Name of assignment or project: Support mission for the integration of environmental and climate issues into the URBAYITI program - **Urban governance and resilient cities**

Year: 2020-2021

Location : Haïti

Client: Expertise France (AFD – French Agency Development)

Main project features: Identifying and assessing, in a collaborative manner, the potential future environmental and climate impacts of the activities supported by the program and to identify environmental opportunities **including nature-based solution**.

Positions held: Technical contributor

Activities performed: -Background study on the identification of the main environmental and natural resource risks and constraints to the implementation of the activities envisaged under the Urbayiti program.

Revision: 1		
Page 9 of 21		

Name of assignment or project: Use of digital technologies to develop a methodology to increase climate resilience in the city of Ouagadougou – Burkina Faso

Year: 2021-2022

Location: Ouagadougou – Burkina Faso

Client: CTCN (UNON)

Main project features: i) develop and implement a methodology based on satellite technologies to identify sites for the promotion of urban green infrastructure, ii) prepare a plan to implement and manage green infrastructure on the identified sites, iii) and draft a concept note to facilitate the financing of the proposed projects. This assignment also seeks to contribute to capacity building in green infrastructures in Burkina Faso and awareness rising to the challenges of sustainable cities among the youngest and most vulnerable populations.

Positions held: Project leader – **Urban Flood Resilience Expert**

Name of assignment or project : Coalition for climat resilient Investment (CCRI): development of the first framework for the translation of physical climat risk data in cash flow modelling and asset valuation process

Year : 2020 2022

Location : France, Cambodge, Vietnam, Cambodia, USA, UK, Greece, Indonesia, Kenya, Ouganda, Nigeria

Client: (Global Commission on adaptation, Center for adaptation, World Economic Forum, UN Climat Change Conference UK 2020, Willis Towers Wastso)

Main project features: The Goal of the project is to transform infrastructure investment by integrating climate risks into decision-making, driving a shift toward a more climate resilient economy for all countries, including the most vulnerable. Building the economic and financial case for climate resilient investments will mobilise capital into resilient infrastructure and foster a more resilient financial industry

Position held: Key expert on resilience critical infrastructure (transport, energy and water)

Activities performed: Within the framework of its candidacy, the international consortium needs: To have a status report of the information contained within the tender document and the dataroom concerning the subject of climate, i.e. resilience and adaptation to climate change ;To provide an analysis of the expectations of the investment regarding the climate in the cash flow modelling; To identify the climate-related issues identified by previous technical studies and possible assessment works within the previous studies in the dataroom to design the cash flow modelling; Engineering module team review workplan; A strengthened market for private and public sector investment in climate resilient infrastructure; Reduced climate risk resulting from a shift in the flow of investment towards climate resilient infrastructure ; Support for climate vulnerable geographies to attract investment and prevent capital flight as climate risks become more evident

Name of assignment or project: RESILIENT MASS TRANSIT INFRASTRUCTURE in Ouagadougou – Burkina Faso

Year: 2020

Location: Ouagadougou – Burkina Faso

Client: World Bank

Main project features: Inform the technical design of the future mass transit system in Ouagadougou, by **identifying and prioritizing measures and infrastructure investments for increasing the future system's climate-resilience using nature-based solutions amongst other solutions**

Positions held: **Team leader** - Climate adaptation expert

Activities performed: **coordination between all the stakeholder, resilience mobility strategy, Urban planning strategy, infrastructure planning strategy;** socio-economic vulnerability assessment

Name of assignment or project: CCMSUT Indian Project

Year: 2020-2022

Location: India

Client: AFD (French Agency of Development)

Main project features: Preparation of Climate Change Mitigation Strategy for Urban Transport in India and definition of an urban mobility observatory at national level, including resilience and climate change adaptation strategy to the **disaster risk management, urban planning and transport infrastructure. Definition of the SDG's compliance strategy and implementation to the urban mobility road and nature-based solution**

2023/05/31	<p style="text-align: center;">ARISE Board Elections Self-nomination Form (deadline for submission: 21 June 2023)</p>	
PU-BENF		
Revision: 1		
Page 10 of 21		

Positions held: Key Expert Climate change adaptation– **Urban Flood Resilience Expert**

Activities performed: **coordination between all the stakeholder, resilience mobility strategy, Urban planning strategy, infrastructure planning strategy;** monitoring of natural hazards; socio-economic vulnerability assessment and **satellite data**

Name of assignment or project: **CORE project: Human Factors, and social, societal, and organizational aspects for disaster-resilient societies**

Year: 2020-2022

Location: Europe

Client: European Commission – H2020 Project

Main project features: Preparation of Climate Change Mitigation Strategy for European communities and definition of a socio-economical observatory at European level, including resilience and climate change adaptation strategy to the **disaster risk management, urban planning and transport infrastructure. Definition of the SDG's compliance strategy and implementation to social and human European policy**

Positions held: Key Expert in Climate change adaptation

Activities performed: **Coordination between all the stakeholder, resilience society and community's strategy, Urban planning strategy, infrastructure planning strategy;** monitoring of natural hazards; socio-economic vulnerability assessment and **nature-based solution**

Name of assignment or project: PROBONO

Year: 2021 – 2023

Client: European Commission – H2020 Project

Location: Europe

Main project features: The PROBONO vision is a people-focused European construction industry working in harmony with the broader community of stakeholders including public authorities and citizens to deliver scalable, sustainable, and viable energy positive and zero-carbon Green Buildings and Neighbourhoods (GBN). PROBONO will contribute to this vision by providing five GBN Transition Acceleration Enablers (Figure 1), deployed in six high impact and people-focused real-life large-scale Living Labs (LLs) (leveraging existing projects and/or approved renovation plans). LL outputs will be feeding into a transferability and innovation replication framework that will enhance the transition capabilities of local communities.

Positions held: Project manager

Activities performed: Analysis of climate adaptation of resilience support measures and development of a common rating scale (refer to value profiling or value benchmarking) to measuring multiple sustainability related KPIs, thus allowing designers (i.e. architects and engineers) to evaluate them while developing design/renovation scenarios. And development of a Climate adaptation and resilience tool. Support climate change impacts and risks and specify mitigation and adaptation options taking into account territorial diagnostics, weather and climate data services predictive monitoring, and technology options

Name of assignment or project: OISSEL project

Year: 2020-2022

Location: Senegal - City of Saint-Louis du Senegal

Client: Space Climate Observatory (SCO) labeled project funded by UNDP

Main project features: Development of a **GIS-based decision support monitoring tool** by observing, evaluating and anticipating the impacts of climate change, using **satellite data**, in situ data and socio-economic activities data applied to the **disaster risk management, urban planning and transport infrastructure. Definition of the SDG's compliance strategy and implementation to the urban mobility roadmap and Urban planning roadmap**

Positions held: Co-Team Leader– **Urban Flood Resilience Expert**

Activities performed: **GIS architecture, design, implementation and maintenance, resilience Urban planning strategy;** monitoring of natural hazards; socio-economic vulnerability assessment

Name of assignment or project: Resilience of line 15 west - southern part (of Grand Paris express) to the risks of pandemic and flooding (INTENCITES15, France)

Year: 2020 2021

Location: Paris - France

Client: INTENCITES15 (Societe du Grand Paris Project)

2023/05/31	<p style="text-align: center;">ARISE Board Elections Self-nomination Form (deadline for submission: 21 June 2023)</p>	
PU-BENF		
Revision: 1		
Page 11 of 21		

Main project features: diagnosis of exposure to natural and climatic risks of international subway transport infrastructures in Ile de France / Grand Paris area through notably satellite data and the evaluation of nature-based solution (Study subject to a NDA). **Definition of the climate change adaptation and mitigation strategy for Societe du Grand Paris (subway and railway Line 15 project)**

Positions held: Key Expert on Climate change adaptation.

Activities performed: Preparation of Climate Change Mitigation Strategy for Urban Transport in Accra including resilience and climate change adaptation strategy (CAPEX, OPEX) to the disaster risk management, urban planning and transport infrastructure. **Definition of the SDG's compliance strategy and implementation to national mobility roadmap.** Evaluation of the impact of climate change to the CAPEX and OPEX and insurance cost

Name of assignment or project: RESILIANCE project

Year: 2020-2022

Location: France

Client: ADEME

Main project features: R&D project to develop GIS-based tools for a better adaptation of buildings to climate change including meteorological scenarios, satellite data, thermal comfort modeling and cost-effectiveness analysis.

Positions held: Technical contributor

Activities performed: Benchmark of technical solutions; Cost-effectiveness analysis of international best practices and specifications.

Name of assignment or project: GIS-based assessment of the vulnerability of the rail network to climate change: Case of the Seine Axis

Year: 2020-2021

Location: France

Client: SNCF (French national railway company)

Main project features: Determination of the vulnerability of the Seine axis rail network to the effects of climate change including satellite data and nature-based solution

Positions held: Technical contributor

Activities performed: Analysis of physical sensitivities and vulnerability increasing factors; Physical Sensitivity Scoring; Physical Vulnerability Scoring.

Name of assignment or project: GIS-based assessment of nature-based solutions to reduce environmental impacts

Year: 2020-2021

Location: France

Client: Bordeaux Métropole

Main project features: Identification of the Noise Black Points (PNB) in several Bordeaux's neighborhoods and specifications of technical solutions, including nature-based ones, to mitigate them, improve air quality and better adapt to climate change impacts.

Positions held: Technical contributor

Activities performed: Benchmark of technical solutions acting for reducing both noise, pollution and climate impacts; test of some solutions and cost-effectiveness analysis.

Name of assignment or project: Technical assistance relative to the implementation of a climate change adaptation strategy – Current and future GIS-based (including satellite data) vulnerability assessment

Year: 2020-2021

Location: France (Metropolitan and Overseas island)

Client: CDC-Habitat - Groupe Caisse des Dépôts

Main project features: Definition of the climate change adaptation and mitigation strategy for CDC-Habitat. Definition of the compliance between SDG's, the Paris Agreement and the CDC Habitat roadmap. Coordination of the GIS-based vulnerability diagnosis of CDC Habitat's assets. Development of a tool to enhance the resilience of buildings to climatic hazards within the

framework of an adaptation strategy including **nature-based solution**. Methodology testing on the sample of existing buildings (6 buildings) and new buildings (1 project). Evaluation of the impact of climate change to the CAPEX and OPEX

Positions held: Team Leader

Activities performed: **Climate change adaptation strategy, coordination between all the stakeholder, GIS-based** vulnerability mapping of the assets; Resilience Performance Tool development; Application to the methodology concerning a set of buildings.

Name of assignment or project: **Evaluation of the Road infrastructure resilience facing climate change in city aera**

Year: 2019

Location: Greece – Athena aera

Client: Olympia Odos

Main project features: Preliminary **diagnosis of exposure to natural and climatic risks** of international road transport infrastructures in Greece and in Athene aera **through notably satellite data and the evaluation of nature-based solution** (Study subject to a NDA)

Positions held: Team Leader

Activities performed: Preparation of Climate Change Mitigation Strategy for Urban and national Transport in Greece and in Athena aera including resilience and climate change adaptation strategy (CAPEX, OPEX) to the **disaster risk management, urban planning and transport infrastructure. Definition of the SDG's compliance strategy and implementation to the urban and national mobility roadmap, investment and insurance cost**

Name of assignment or project: **GIS-based platform** dedicated to climate **risks analysis** about worldwide **airport infrastructures** wit a pilote test in Japan and Cambodia and Thailand

Year: 2020

Location: Worldwide including Asia aera

Client: Vinci Airport

Main project features: Development and delivery of a **GIS-based platform** for diagnosing and monitoring exposure to climate risk for internationally distributed concessions in order to plan adaptation and crisis management measures. Evaluation of the impact of climate change to the CAPEX and OPEX and **insurance cost through notably satellite data and the evaluation of nature-based solution**

Positions held: Team Leader

Activities performed: Definition of data needed for GIS-based monitoring and analysis of climate risks; Definition of the methodology and its steps.

Name of assignment or project: **GIS-based** quantification of an innovative coating technology to quantify the cooling effect of a place

Year: 2020

Location: France

Client: Eurovia (Vinci-Group)

Main project features: Determination and quantification how the customer technology can play a role in reducing the effects of urban heat islands including notably **nature based solution**.

Positions held: Project manager

Activities performed: Design and production of a digital **GIS model of a study site**; definition of the thermal and radiative characteristics of the materials; Quantification of the cooling potential with/without the innovative proposal for a period of 3 full days during a phase of high heat. Post-treatment and analysis. Calculation of a Universal Thermal Comfort Index (UTCI) and **remote sensing measurement by satellite data**.

Name of assignment or project: GIS-based quantification of **nature-based solutions** cooling effect in an urban development project.

Year: 2020

Location: France-Olympic Village for Paris 2024

2023/05/31	<p style="text-align: center;">ARISE Board Elections Self-nomination Form (deadline for submission: 21 June 2023)</p>	
PU-BENF		
Revision: 1		
Page 13 of 21		

Client: Vinci Immobilier

Main project features: Quantifying the effect of Urban Heat Islands (UHI), valorizing Urban Fresh Islands and optimizing urban thermal comfort.

Positions held: Project manager

Activities performed: Design and production of a digital **GIS model of the study site**. 3D model of the site and definition of the thermal and radiative characteristics of the materials. Current and prospective simulations to quantify the cooling potential of vegetation during high heat episodes.

Name of assignment or project: **GIS-based** quantification of **nature-based solutions** cooling effect in a rail station

Year: 2019-2020

Location: France - City of Paris

Client: Station Nord

Main project features: Quantify the urban heat island effect within a Parisian train station, considering several landscaping projects of the study site, through notably **remote sensing and satellite data**.

Positions held: Technical Support

Activities performed: Collection of input data (study areas and obstacles, vegetation zones, meteorology, **satellite data**). **GIS-based** 3D modeling of air flows. Production of visuals illustrating the site's potential.

Name of assignment or project: **GIS-based** vulnerability and resilience assessment of industrial infrastructures to dune movement & erosion effect using **satellite data analysis and climate modelling**. **Year:** 2019-2020

Location: Kazakhstan

Client: ORANO-KATCO

Main project features: **GIS-based risk assessment** of industrial facilities. Assessment of the aggressiveness of the environment on the pipeline integrity and road infrastructure. Identification of the most vulnerable sections and implementation of nature-based solution to mitigate climate risk. Recommendations to mitigate wind sand effects and to enhance the pipeline maintenance system and the road logistic infrastructure. Evaluation of the impact of climate change to the CAPEX and OPEX and **insurance cost**. **Strategy to protect the "Saxaoul" (protected endemic tree species)**

Positions held: Team Leader

Activities performed: A field mission of five days with a **GIS-based photographic reportage** of all the observations made relative to the aggressiveness of the environment and the auscultation of the industrial facilities. **GIS-based risk assessment of the customer facilities**. Risk reduction recommendations and operational solutions.

Name of assignment or project: **Evaluation of the Road infrastructure resilience facing climate change in city aera**

Year: 2019

Location: Ghana – Accra city

Client: Vinci Concessions

Main project features: Preliminary **diagnosis of exposure to natural and climatic risks** of international road transport infrastructures in Accra City and Ghana (Study subject to a NDA) thought satellite data

Positions held: **Key Expert on Climate change adaptation**.

Activities performed: Preparation of Climate Change Mitigation Strategy for Urban Transport in Accra including resilience and climate change adaptation strategy (CAPEX, OPEX) to the **disaster risk management, urban planning and transport infrastructure including nature-based solution**. **Definition of the SDG's compliance strategy and implementation to the urban and national mobility roadmap**. Evaluation of the impact of climate change to the CAPEX and OPEX and **insurance cost**

Name of assignment or project: **Evaluation of airport network infrastructure resilience facing climate change in insular country**

Year: 2019

Location: Cap Verde islands

2023/05/31	<p style="text-align: center;">ARISE Board Elections Self-nomination Form (deadline for submission: 21 June 2023)</p>	
PU-BENF		
Revision: 1		
Page 14 of 21		

Client: Vinci Airport

Main project features: Preliminary **diagnosis of exposure to natural and climatic risks** of international airport transport infrastructures in Cap Verde Islands (Study subject to a NDA)

Positions held: **Key Expert on Climate change adaptation.**

Activities performed: Preparation of Climate Change Mitigation Strategy for Urban Transport in Accra including resilience and climate change adaptation strategy (CAPEX, OPEX) to the **disaster risk management, urban planning and transport infrastructure. Definition of the SDG's compliance strategy and implementation to national mobility roadmap.** Evaluation of the impact of climate change to the CAPEX and OPEX and **insurance cost**

Name of assignment or project: **Evaluation of airport network infrastructure resilience facing climate change in insular country**

Year: 2019

Location: Republic of Dominica

Client: Vinci Airport

Main project features: Preliminary **diagnosis of exposure to natural and climatic risks** of international airport transport infrastructures in Republic Dominica Islands (Study subject to a NDA)

Positions held: **Key Expert on Climate change adaptation.**

Activities performed: Preparation of Climate Change Mitigation Strategy for the Republic of Dominica including resilience and climate change adaptation strategy (CAPEX, OPEX) to the **disaster risk management, urban planning and transport infrastructure including nature-based solution. Definition of the SDG's compliance strategy and implementation to national mobility roadmap.** Evaluation of the impact of climate change to the CAPEX and OPEX and **insurance cost**

Name of assignment or project: **GIS-based climate change knowledge sharing platform including climate data cataloguing, processing and training of local experts.**

Year: 2019-2020

Location: Liberia

Client: UNDP

Main project features: **GIS-based platform** to strengthen institutional and regulatory systems for taking climate into account in development planning.

Positions held: **Key Expert on Climate change adaptation.**

Activities performed: Design of the methodology and detailed work plan (framework report and tools); development of the **GIS-based platform** with all the architecture and options; Climate change and environmental data acquisition and processing, including **satellite data**; Conduct training for technicians for operational management and **maintenance of the platform** ; final report of the platform and training.

Name of assignment or project: **Evaluation of airport infrastructure resilience facing climate change in southern Asian country**

Year: 2019

Location: Cambodia

Client: Vinci Airport

Main project features: Preliminary **diagnosis of exposure to natural and climatic risks** of international airport transport infrastructures in Cambodia (Study subject to a NDA)

Positions held: **Team leader and Key expert on Climate change adaptation.**

Activities performed: Preparation of Climate Change Mitigation Strategy for the Republic of Dominica including resilience and climate change adaptation strategy (CAPEX, OPEX) to the **disaster risk management, urban flood risk management, urban planning and airport infrastructure including nature-based solution. Definition of the SDG's compliance strategy and implementation to national mobility roadmap and urban system transport.** Definition of several strategy for relocalisation facing sea level rise. Evaluation of the impact of climate change to the CAPEX and OPEX and **insurance cost**

Name of assignment or project: **Evaluation of airport infrastructure resilience facing climate change in southern Asian country**

Year: 2019

Location: Japan

Client: Vinci Airport

Main project features: Preliminary **diagnosis of exposure to natural and climatic risks** of international airport transport infrastructures in Japan (Study subject to a NDA)

Positions held: **Team leader and Key expert on Climate change adaptation.**

Activities performed: Preparation of Climate Change Mitigation Strategy for the Republic of Dominica including resilience and climate change adaptation strategy (CAPEX, OPEX) to the **disaster risk management, urban flood risk management, urban planning and airport infrastructure including nature-based solution. Definition of the SDG's compliance strategy and implementation to national mobility roadmap and urban system transport.** Definition of several strategy for relocalisation facing sea level rise. Evaluation of the impact of climate change to the CAPEX and OPEX and **insurance cost**

Name of assignment or project: Technical assistance to support a strategic and operational plan dedicated to **the resilience of transport infrastructure and urban mobility.**

Year: 2019

Location: France

Client: COFIROUTE (Vinci Autoroute)

Main project features: Diagnosis of climate vulnerability of the **COFIROUTE road network and** related issues.

Positions held: Team Leader

Activities performed: **Coordination between all the stakeholder** (public and private sector). Definition of the scope of work. Definition of the resilience strategy roadmap compliance with the national resilience strategy (from Ministry of transport), customer and other territorial data acquisition and **storage into a GIS including satellite data**; mapping of the most exposed areas to floods; mapping of the sensitivity of the transport infrastructures to floods; mapping of the territorial vulnerability around the infrastructures and **urban flood risk management**; mapping of the **risk management capacity around the infrastructures.** Evaluation of the impact of climate change to the CAPEX / OPEX and **insurance cost**

Name of assignment or project: **Climate change and Resilience strategy for land planning, infrastructures, urban planning and critical infrastructure (including transport system, energy network, etc)**

Year: 2015-2018

Location: **Worldwide including Central Asia, Southern Est Asia and African Cities**

Client: Vinci Construction

Main project: Technical assistant for PPP projects in the design, works and operation phase of infrastructure projects dedicated to the waste sector, wastewater treatment and associated facilities (transport infrastructure and electrical network and energy): example of the countries of intervention China, Vietnam, Myanmar)

Positions held: **International Project director and teams leader in climate change adaptation and resilience for infrastructures**
Technical and strategic coordination of Open Innovation, **remote sensing & GIS** and environmental projects

Activities performed: Participation in the CAP 2020 'GIS & Digital Site' program for Vinci Construction towards BIM/GIS/digital tools for work sites notably in the asset in Asia

- Technical support for projects/sites in complex environmental engineering notably in Asia (Vietnam, Singapore, Indonesia)
- Coordination of construction projects (design, build, operation) in flood-prone areas and implementation of **economic model and insurance contract** facing natural risks and climate change
- Response to tender for construction project including **remote sensing & GIS** implementation (€10-20MM) and civil engineering - Offshore wind farm/Linear and underground infrastructure of Grand Paris Express (€350 MM/€950M)
- Development of the "Flood zone construction" bid from ADIM construction company
- Conversion of innovation program towards operational use **training in environment, climate change, natural hazard, GIS and eco-construction (CESAM) in conjunction with construction supervisors/site managers/cost estimate/property developers notably in Asia subsidiary**
- Leader of the urban resilience to climate-change program in Vietnam and Malaysia
- Leader of the GIS & the circular economic plan of action in conjunction with the VINCI holding company
- Leader of the **remote sensing & GIS** development/geo-decisional platform in conjunction with the VINCI Construction holding company including the Asia countries

Name of assignment or project: Capacity building dedicated Civil Engineering in south eastern Asia University

Year: 2015 to 2018

PU-BENF		
Revision: 1		
Page 16 of 21		

Location: Hong Kong, Philippines, Vietnam, Malaysia, Indonesia, Singapore, Burkina Faso, Ivory Coast, Cameroun, Kenya, Nigeria

Client: Vinci Construction Asia and its Asian University partners

Main project features: Training about Coastal and environmental engineer and resilience critical infrastructures (transport, energy, water, telecommunication) facing climate change to design resilience infrastructure including disaster risk reduction **and management**, coastal/urban resilience and climate change adaptation, NBS and climate resilient infrastructure with a speciality in East Asia and Asia Pacific's Regions

Position held: Key expert in climate change adaptation and resilience infrastructures

Activities performed: Description of actual services provided by your staff RESALLIENCE has provided a methodological guide for teaching staff and students to integrate climate change throughout the life cycle of infrastructure (design, construction, maintenance, operation) adapted to the context of South East Asian countries.

Name of assignment or project: Climate change and Resilience strategy for land planning, urban planning and critical infrastructure (including transport system)

Year: 2011-2013

Location: Worldwide including Central Asia and Southern Est Asia

Client: SOFRECO

Main project features: Coordination and implementation of complex project including recruitment, management of project and team management. Definition of the technical and financial scope of work.

Positions held: International Project director

Activities performed: Coordination between all the stakeholder (public and private sector, International founder and public institutional). Definition of the scope of work. Co-development « BtoC » (Africa / Middle-East / Asia) within the institutional sector. Elaboration of projected budgets, response to calls for tenders, writing of technical and financial proposals

- **Afghanistan** (Ministry of Energy, Mines and Petroleum - World Bank): **Development of the GIS platform including integration of filed measurement, geomatic and remote sensing data for mapping geological, natural hazard environmental, and water resources management, transport systems, Natural disaster risk management**
- **Ivory Coast** (Ministry of Energy, Mines and Petroleum - World Bank): **Development of the GIS platform including integration of filed measurement, geomatic and remote sensing data for mapping geological, natural hazard environmental, and water resources management, urban transport systems, and in urban flood risk management**
- **Cameroon** (World Bank): Assistance for the development of the **remote sensing GIS-based mining strategy** and the "mining aftermath" / post-mining years including **water management and nature-based solution**
- **Mali** (Mining Ministry and AUREP): Institutional reform of the oil, sector and **remote sensing (satellite data)-GIS implementation**
- **Niger** (EU): Technical assistance to **remote sensing GIS-based mining exploration** and management of the "mining aftermath" / post-mining years
- **Afghanistan** (World Bank): **remote sensing GIS-environmental and social assessment** of mining resources including **water management**
- **Indonesia** (World Bank): **remote sensing GIS-environmental and social assessment** of natural resources including **water management**
- **Algeria:** Elaboration of the Quality Safety Environment Strategy for FERPHOS SOMIPHOS Group (phosphate mines) & **GIS (including remote sensing data) implementation including water management**

Name of assignment or project: waste and water management facing climate change mitigation and adaptation (including African cities)

Year: 2006-2011

Location: Worldwide including Southern Est Asia and Asia Pacific Countries and African Cities

Client: VEOLIA

Main project features: Coordination and implementation of complex urban planning project including hydrology, water resources management and transport system. recruitment, management of project and team management. Definition of the technical and financial scope of work.

Technical assistant for PPP projects in the design, works and operation phase of infrastructure projects dedicated to the waste sector, wastewater treatment and associated facilities (transport infrastructure and electrical network and energy): example of the countries of intervention China, Vietnam, Myanmar) and resilience cities program notably in Douala, Johannesburg, Cairo.

Positions held: International Project director

Activities performed: Coordination between all the stakeholder (public and private sector, international founder and public institutional). Definition of the scope of work. Co-development of urban project / waste and water treatment plan infrastructures (in Africa / Middle-East / Asia) within the institutional sector. Elaboration of projected budgets, response to calls for tenders, writing of technical and financial proposals

- VEOLIA group **coordinator within the European Copernicus (ex GMES) Space Program (ESA)**
- **Development of scientific and operational projects dedicated to the development of spatial data and remote sensing in the environment industry** and urban planning (waste, water, sustainable city)
- Coordination of R&D projects about **remote sensing GIS-based natural risk**, water resources, hydrology in African countries – 10 M€
- **Coordination with the GMES programs (ex COPERNICUS) about GIS / Remote sensing** based in ecological footprint and carbon balance;
- **Coordination of the** Corporate social responsibility, Biodiversity & nature-based solution program and water management in the (WBCSD)
- Participation to proposals (calls for tenders) about environmental audits and carbon projects (MDP) in **Cameroun, Burkina Faso, Egypt, Morocco, Nigeria**, China, Taiwan, Honk Kong, Vietnam, Singapore,
- Elaboration of methodology and KPI environmental reporting related to the carbon strategy and water management **including Sub-Saharan countries as Burkina Faso and Ghana** and Asia countries as China, Taiwan, Honk Kong, Vietnam, Singapore,

Name of assignment or project: waste and water management facing climate change mitigation and adaptation (including African cities)

Year: 2003-2006

Location: Maroc, Mauritania, Mali and Senegal

Client: ADPS -: Development Agency for (sub)Saharan Territories

Main project features: Coordination and implementation of complex urban planning project including hydrology, water resources management and transport system and urban planning. Definition of the technical and financial scope of work. Evaluation of the financial Model of the cost-benefits for investment dedicated to infrastructure and the resilience strategy facing climate change.

Positions held: International Project director

Activities performed: Coordination between all the stakeholder (public and private sector, International founder and public institutional). Definition of the scope of work. Co-development of urban project in **Morocco, Mauritania, Mali and Senegal** within the institutional sector.

- Member of the **African Urban Environments Observatory using remote sensing (satellite data) and GIS technologies**
- **Elaboration of the Resilience Strategy** dedicated to urban, industrial, harbour infrastructures and **nature-based solution**
- Geopolitical and geostrategic study of natural resources in **Saharan West** and **Sahelian country using remote sensing and GIS technologies**
- Development of **GIS-based strategy** about natural resources, water management, geopolitical and industrial risks from the mining sector
- UNESCO program: **GIS-based** Safeguarding Plan of Ecosystems and Biodiversity (**Morocco, Mauritania, Mali and Senegal**)
- Development of **the first geographic information system dedicated to multi-hazard risk analysis of the great south of Morocco and Mauritania: climatic and seismic risk through the growth of satellite imagery, seismic and geomorphological data**
- Development of a geomatic (**GIS and remote sensing**) decision support tool on natural risk management dedicated to the **investment and development aid policy on housing, urbanization and transport system in southern morocco and transnational network in Sahara-sahel area**

3. Questionnaire

2.1 Please indicate any past or present affiliations and accomplishments related to Disaster Risk Reduction / Prevention / Resilience / Corporate Social Responsibility (CSR) / Environmental Social Governance (ESG) (max 200 words)

Karim SELOUANE created and launched RESALLIENCE in 2019, a design and engineering office dedicated to climate change adaptation for territories, cities, infrastructures, projects and uses.

Karim is a member of the sustainable city working group of the UN Habitat and participated and contributed to the first cities summit in Nairobi in 2019. He also took part in the first UN Science Policy Business Forum (UN-SPBF) on the "Data for the Planet Program Task force" to support the development of innovative disaster risk reduction solutions based on open data from Earth observation satellites.

Karim is also a member of the "Community of users on secure, safe and resilient societies: urban critical infrastructures" from the European Union.

In the context of RESALLIENCE, Karim has been a member of the CCRI since its inception in 2020. He also built a partnership between RESALLIENCE and the CDRI. Karim later facilitated both the CCRI and the CDRI to become members of GlobalABC to reinforce PPPs dedicated to finance resilience.

Since 2020, Karim has been appointed co-chair of the climate change Adaptation Working Group of the GlobalABC hosted by UNEP.

In 2022, Karim was elected as a member of the Mission Board of the European Commission on Adaptation to Climate Change to promote the Commission's actions, advise on the next European resilience roadmap, and facilitate dialogue between public and private stakeholders.

2.2 Please specify if you have the decision-making and support capacities for ARISE within your company relating to at least one the four ARISE focus areas (SME resilience, investment, insurance, resilient infrastructure) at

a) Senior level (max 100 words each)

As Founder and CEO of RESALLIENCE, Karim SELOUANE possesses the decision-making and support capacities for ARISE. In this regard, the examples below demonstrate what he has implemented in relation to the four focus areas.

From 2020 to 2023, and throughout the COVID pandemic, Karim developed and delivered a course on "Global risks and corporate resilience" for SciencePo master's degree students.

Karim contributed to authoring and promoting, for the CCRI, the framework for creating insurance and financing mechanisms dedicated to the resilience of critical infrastructures.

2023/05/31	<p style="text-align: center;"> ARISE Board Elections Self-nomination Form (deadline for submission: 21 June 2023) </p>	
PU-BENF		
Revision: 1		
Page 19 of 21		

In 2019, Karim established ALTERS, a think tank and information platform that bridges the public and private sectors on global and systemic risks. ALTERS brought together SMEs, multinational corporations, French Ministries, and sub-national policymakers.

(<https://alters-media.fr/2020/12/03/pourquoi-je-salue-la-naissance-de-cette-revue/>)

Within the GlobalABC context, Karim initiated the program "Adaptation of the Building Sector to Climate Change: 10 Principles for Effective Action" and launched it during COP26, further promoting it at COP27. The manifesto has been endorsed by over 50 countries and 30 private actors to define a public-private partnership framework for climate change adaptation.

(https://globalabc.org/sites/default/files/inline-files/10%20principles_ENG_0.pdf)

In early 2023, Karim was selected by UNIDO and UNDRR to participate in the Expert Group Meeting on SDG9 (Industry, Innovation and Infrastructure) and its interlinkages with other SDGs.

b) Technical level (max 100 words each)

As the Founder and CEO of RESALLIENCE since 2019, Karim has initiated and supervised over 100 projects across 90 countries, spanning all continents. He has always paid close attention to ensuring the interlinkages between strategic and technical levels, consistently integrating resilience and adaptation considerations. Additionally, Karim is a member of the European Resilience Task Force of the European Committee for Standardization (CEN).

Among other achievements within the RESALLIENCE context, he developed the Resilience Performance Assessment (RPA), an integrated digital engineering solution. The RPA integrates systematic prospective modeling solutions that encompass current and future risks under climate change. Moreover, it utilizes satellite-based observation and monitoring systems to provide near-real-time crisis observation. This Emergency Warning solution was co-constructed with stakeholders from island and French regions, with the aim of securing services (health/civil security), essential materials, and products for crisis management. It also assists in assessing scenarios for organizational consensus and prioritizing resilience/adaptation actions. The RPA has been chosen by the IFC (World Bank Group) for national-scale implementation in the Caribbean and by CDC in France. This systemic modeling tool and platform have been implemented and used by private players on a global scale, as well as by national and local public administrations and local communities. The RPA was later selected by UNDRR-ARISE as an innovative solution aligned with the achievement of SDGs. Furthermore, the RPA was selected to join the international alliance Emergency Warning Services in the Global Digital Compact.

(<https://gdc-ews.s3.amazonaws.com/index.html>)

2.3 Please specify if you have the decision-making and support capacities within your company relating to other key areas such as Early Warning or Public-Private Partnership at national or local level (100 words)

As the Founder and CEO of RESALLIENCE, Karim has ensured that the company endorses the key objectives of UNDRR, particularly those related to Early Warnings and Public-Private Partnerships. This commitment is demonstrated through the development of an integrated digital engineering solution called the Resilience Performance Assessment (RPA). The RPA combines systemic modeling with current and future climate risks, as well as satellite-based monitoring systems for near-real-time crisis observation. It has been applied in various contexts, including islands, coastal areas, and metropolitan urban settings, with a focus on critical infrastructure to ensure the accessibility and continuity of essential services and efficient crisis management. The RPA aligns with SDG-driven resilience objectives and facilitates assessments of environmental, socioeconomic, as well as loss and damage impacts. Collaborating with over ten local

2023/05/31	<p style="text-align: center;"> ARISE Board Elections Self-nomination Form (deadline for submission: 21 June 2023) </p>

governments and administrations (such as Barbados, Dominica, France, Liberia, Madagascar, Morocco, Philippines), international finance institutions, intergovernmental organizations, and development agencies (such as IFC of the World Bank Group, Global Center of Adaptation, 4CMAROC, ADEME International, UNEP), RESALLIENCE has implemented this innovative solution.

2.4 Indicate if your company is affiliated with / member of any other global private sector networks such as the UN Global Compact, World Economic Forum (WEF), World Business Council for Sustainable Development (WBCSD) International Chambers of Commerce (ICC), or other private sector network, including of other UN agencies (please specify) (max 100 words each)

Resallience is affiliated with:
 Global Alliance for Building and Construction (GABC), Coalition for Disaster Risk for Infrastructure (CDRI), Coalition for Climate Resilience for Investment (CCRI), The international alliance Emergency Warning Services in the Global Digital Compact, and enterprise pour l'environnement (EPE).

2.5 Please list 3 goals which you would aim to achieve as Board Member of ARISE, specifically within (max 100 words)

- a) your 1st year
- b) long term

a) over the first year:

One of my key strengths would lie in representing UNDRR at high-level political and business processes and international conferences such as COP28, the General Assembly of Global ABC. I would ensure to further introduce and build ties in between UNDRR-ARISE and international bodies such as the Global Climate Action and the European Commission Mission Board on Climate Change Adaptation.

I am keen to support and collaborate with the UNDRR and ARISE teams in expanding the organization's network, engage with interested partners and participate in the onboarding activities of new members. I strongly believe that my extensive international network will be an asset to UNDRR ARISE. I am committed to utilizing my connections for the collective benefit of the organization and the broader community.

b) On the long term:

I am deeply committed to accelerating operational actions for resilience and adaptation to climate change. I am eager to contribute to the development of UNDRR ARISE programs and roadmaps that foster systemic and multi-region resilience, especially through innovative North-South and South-South collaborations and public-private partnerships. My experience in designing and launching the "Adaptation of the Building Sector to Climate Change: 10 Principles for Effective Action" of the GlobalABC, which I introduced at COP26, demonstrates my capability to shape impactful initiatives.

2. Curriculum Vitae

2.1 PLEASE ATTACH YOUR CV OR RESUME TO THIS SELF-NOMINATION FORM.

3. Questionnaire

3.1 Please indicate any past or present affiliations and accomplishments related to Disaster Risk Reduction / Prevention / Resilience / Corporate Social Responsibility (CSR) / Environmental Social Governance (ESG) (max 200 words)

In the last quarter of 2020 during what was the most unprecedented event, I embarked on a journey to make a stronger contribution to the world around me and joined the SUNx program and became a Strong Climate Champion. Including a Climate Friendly Travel Diploma with the Institute for Tourism Studies in Malta, the program inspired by the late Maurice Strong - Sustainability and Climate Activist, this is a legacy of his 20 years of collaboration on Green Growth within Travel and Tourism, with Professor Geoffrey Lipman, and Felix Dodds on Sustainable Development. This is a support system for Travel & Tourism stakeholders to build Climate Resilience in line with the targets of the Sustainable Development Goals (SDG) and Paris Agreement through Climate Friendly Travel (CFT). It is managed by the EU-based not-for-profit Green Growth & Travelism Institute (GGTI) and is supported by The SUNx Malta Climate Friendly Travel Registry for 2050 Climate Neutral & Sustainability Ambitions. Today, alongside people from different parts of the world we believe that radical collaboration is fundamental if we are to maintain our planet within 1.5° and we are here to support this transition in the Travel & Tourism sector.

3.2 Please specify if you have the decision-making and support capacities for ARISE within your company relating to at least one of the four ARISE focus areas (SME resilience, investment, insurance, resilient infrastructure) at

a) Senior level (max 100 words each)

Presenting strategies while establishing an environment that fuels the growth of small businesses within the destination is one of our mandate. Destination Dominica has been one of the islands affected by the effect of climate change hence making resiliency a key part of our day to day strategies. We have seek to initiate efforts to partner with the climate agency on island to maximize on all efforts.

b) Technical level (max 100 words each)

2023/06/06	<p style="text-align: center;"> ARISE Board Elections Self-nomination Form (deadline for submission: 21 June 2023) </p>	
PU-BENF

Page 3 of 4		

The DAIC office is equipped with technologies to assist in the facilitation of training and dissemination of information. Change can be made to incorporate an additional workforce if the workload increases.

3.3 Please specify if you have the decision-making and support capacities within your company relating to other key areas such as Early Warning or Public-Private Partnership at the national or local level (100 words)

The secretariat is supported by a board of directors which meets once a month or sooner if the situation arises to assist in the decision-making process.

3.4 Indicate if your company is affiliated with / member of any other global private sectors networks such as the UN Global Compact, World Economic Forum (WEF), World Business Council for Sustainable Development (WBCSD) International Chambers of Commerce (ICC), or another private sector network, including of other UN agencies (please specify) (max 100 words each)

Through the Caribbean Chamber of Commerce, the DAIC is affiliated with UN Global Compact and the International Chamber of Commerce.

3.5 Please list 3 goals which you would aim to achieve as a Board Member of ARISE, specifically within (max 100 words)

- a) your 1st year
- b) long term

During the first year, my role as a board member would be

1. Identifying agencies with similar goals and creating partnerships which are expected to eradicate the duplication of the same task by different agencies and strengthen the impact of projects.
2. Establish an international registry/ director of climate activists/ agencies
3. Identify challenges faced by the regions which affect the resiliency of small and micro businesses.

My long-term plans would include

1. Setting regional projects in the field of resilient, sustainability and innovation.
2. Build a linkage with climate agencies that would benefit from the strength and weaknesses of each.
3. Develop regional plans/ strategies that are expected to guide micro and small businesses on the path to resiliency.

EXPERIENCE

Everbridge
Public Affairs and Government Relations Manager

Imola, Italy
March 2021 - Present

- Became the EU regulatory focal point by developing 12 regulatory briefs yearly on the Sustainable and Digital agenda of the EU to further the EVBG "Tech for Good" strategy
- Shape the external policy environment across key target countries, starting from EMEA and gradually expanding to all international regions (EMEA, APAC, LATAM) to support the growth of our Public Safety and CEM businesses, resulting in an increase in sales to governments by 35%
- Supported the positioning of the company on the ESG+R international agenda by developing new thought leadership (6 articles/white papers) about the role of EVBG tech for climate adaptation and disaster risk reduction
- Became a member of the ESG+R group with compliance responsibilities regarding Environment and EU Sustainability Regulations such as the CSRD (2023)
- Facilitated Everbridge partnerships with international organizations such as ITU (Sector D member), UNDRR ARISE & World Climate Foundation to support the creation of an EVBG international resilience ecosystem
- Led Everbridge in negotiations with the Italian Government (Civil Protection) that led to the implementation of IT-Alert and compliance with the EU Directive 1972/2018
- Managed three PR Agencies in Europe: Ascendant (UK), Meiji (France), PRCOM (Germany), increasing EVB Gmedia presence in Europe by 90% Y/Y 2022/2023
- Represented EVBG in influential international gatherings such as COP 26 (WCS); COP 27 (WCS), the UNDRR Global Platform & UNDRR Regional (Uruguay) Platform, and at the HLM in New York aimed at furthering the role of technology, and the private sector in support of the Sendai Framework on digital infrastructure, public safety & disaster risk reduction

Imola City Council Twinning Commission
Secretary General

Bologna, Italy
November 2021 - Present

- Relaunched the commission activities to improve relations with the twin cities: Colchester, UK, Gennevilliers, France, Pula, Croatia and Weinheim, Germany
- Assisted the Mayor of Imola in the coordination of the EU ERCC which helped the local civil protection by bringing in international civil protection from France, Slovenia, Belgium, and Slovakia during the Emilia-Romagna flooding of May 2023
- Led the visit to Colchester, UK, to promote the agricultural know-how of Imola resulting in increased agricultural commerce by 5%
- Drafted the EU Funded project (CEVIS) between Imola and the twin cities in support of European Values for a budget of 35-50K€ in 2024

Johns Hopkins School of Advanced International Studies in Europe

Bologna, Italy

Board of Advisors

Junior Member

May 2021 - Present

- Led University relations with local, regional, and national companies and organizations to increase opportunities for students (+20 internships provided)
- Organized the university's first conference in Italian with guest Ilaria Capua to speak on Circular Health which brought in 200+ guests, including Romano Prodi and Mario Monti (former Italian PMs), and attracted new donors such as CEFLA
- Supported the engagement strategy derived from the 100M € of James Anderson by advocating the need

Center for Constitutional Studies and Democratic Development

Bologna, Italy

Communication Manager & Assistant to the Director

June 2020 - Present

- Launched an innovative communication strategy around social media that doubled viewers' engagement of the Center on the website, LinkedIn, Facebook, and Instagram
- Assisted the Director in grant writing and editing articles for academic journals which led to the Center receiving 12K in funding
- Researched the use of military contractors on vessels by European countries for academic publication

Osservatorio Private Equity e Finanza per la Crescita

Milano, Italy

Research Assistant

June 2019 – August 2019

- Analyzed the investment policies of Italian companies and investment funds to maintain an accurate understanding of the Italian financial market for Private Equity and Merger & Acquisition portfolios
- Negotiated with law firms and the Osservatorio's sponsors to release data certification documents regarding M&A and Private Equity deals to improve the quality of transaction entries within Osservatorio's database
- Collected and entered data on 203 M&A and Private Equity negotiations into the organization's database and revised over 800 market deals to forecast the financial trends of the PE and M&A markets in Italy

European Union Diplomatic Mission to the US

Washington, DC, USA

Trade and Agriculture Trainee

January 2018 – June 2018

- Prepared reports for the Ambassador's missions to US states, detailing trade data between the EU and the US states of interest (Texas, Arkansas, South Dakota, Wyoming)
- Drafted pertinent summaries of the National Trade Estimates Report, the CFIUS Reform (with focus on dual-use technology), and the 2018 Farm Bill to analyze the US's trade stance related to the EU
- Researched and assessed the trade and political impact of the US's import tariffs for steel and aluminum on US states and EU member states, which the Ambassador referenced in writing to the US President

2020 A Year Without War Italia

Imola, Italy

President, Chairman of the Board & Founder of Italian Chapter

July 2016 - Present

- Designed the organization's strategic annual plan and managed donation revenue from sponsors and donors, resulting in increased revenues by 30% Y/Y
- Researched and compiled information on current military spending worldwide to assess its impact on the global economy in order to draft a Resolution presented at the United Nations in September 2016
- Led delegation of 2020 AYWW at the International Day of Peace – Student Observance at the United Nations (2016) and headed a delegation at the World Summit of Nobel Peace Laureates 2017 in Bogotá

2. Curriculum Vitae

2.1 PLEASE ATTACH YOUR CV OR RESUME TO THIS SELF-NOMINATION FORM.

3. Questionnaire

3.1 Please indicate any past or present affiliations and accomplishments related to Disaster Risk Reduction / Prevention / Resilience / Corporate Social Responsibility (CSR) / Environmental Social Governance (ESG) (max 200 words)

Since joining Everbridge, I have led the company's positioning on the sustainability and disaster reduction agenda internationally. After almost three years, Everbridge is now a strong advocate of disaster risk reduction through several fora: at the UN (UNDRR, ITU, World Bank), and through partnerships with other private sectors members, such as Skyline Partners for parametric insurances.

As the leading tech company for digitization of critical event management and critical event communication software and services, we channel our know-how and experience through crucial initiatives and partnerships. I have been a strong advocate of the Early Warning for All initiative, on which we are currently working with ITU, many private sector enterprises (Howden), and academia (Johns Hopkins SAIS Europe and University College London). I revamped our membership in ARISE after years of inactivity. I launched, in partnership with the Business Development team, the Insurance Backed Risk Facility (IBRF), a btb financial vehicle, that brings together parametric calculators, insurers, technology, and response mechanisms for disaster reduction and response.

Outside Everbridge, I have been collaborating with the City of Imola to bring the city into the UN Making Cities Resilient 2030, and drafted EU projects based on ESG+R.

3.2 Please specify if you have the decision-making and support capacities for ARISE within your company relating to at least one the four ARISE focus areas (SME resilience, investment, insurance, resilient infrastructure) at

2023/05/31	<p style="text-align: center;">ARISE Board Elections Self-nomination Form (deadline for submission: 21 June 2023)</p>	
PU-BENF		
Revision: 1		
Page 4 of 6		

a) Senior level (max 100 words each)

The strategy for the global engagement through the ARISE pillars is shared by the Senior Management Team (SMT), as it closely resembles our business strategy. Because my engagement in the Global Board of ARISE has been approved by SMT, my voice on the Global Board would reflect the perspective of the company and would be supported accordingly.

The capacity to develop projects and initiative with a role on the Global Board will be ensured by my coordinating role in Everbridge regarding themes that mimic the ARISE pillars in EVBG.

b) Technical level (max 100 words each)

SME Resilience: EVBG is strategically invested in working to ensure business and operational resiliency to all enterprises globally. Our work to digitize Standard Operating Procedures during critical events already covers hundreds of companies.

Investment & Insurance: Through the launch of IBRF we are developing new models which use new sources of investment (impact, green and possibly resilience investments).

Resilient Infrastructure: By developing our public safety portfolio, EVBG is invested in ensuring the protection of lives and livelihoods globally.

3.3 Please specify if you have the decision-making and support capacities within your company relating to other key areas such as Early Warning or Public-Private Partnership at national or local level (100 words)

Everbridge is one of the most vocal tech companies in the area of Early Warning for All. We are invested in the UNDRR process for shaping the Sendai Framework (primarily Target G), and we already work with the ITU to understand how to encompass regional mandates for dissemination systems at the global level.

Support for the Early Warnings for All initiative is an EVBG OKR.

2023/05/31	<p style="text-align: center;">ARISE Board Elections Self-nomination Form (deadline for submission: 21 June 2023)</p>	
PU-BENF		
Revision: 1		
Page 5 of 6		

3.4 Indicate if your company is affiliated with / member of any other global private sector networks such as the UN Global Compact, World Economic Forum (WEF), World Business Council for Sustainable Development (WBCSD) International Chambers of Commerce (ICC), or other private sector network, including of other UN agencies (please specify) (max 100 words each)

Everbridge is currently part of:

- 1) UNDRR ARISE
- 2) ITU SECTOR MEMBER GROUP D
- 3) WORLD CLIMATE FOUNDATION
- 4) COMMON ALERTING PROTOCOL CALL TO ACTION (supported by WMO)
- 5) Global Digital Compact
- 6) 3GPP, ETSI (currently chair of the EMTEL committee)
- 7) We are in discussion with ANTICIPATION HUB

3.5 Please list 3 goals which you would aim to achieve as Board Member of ARISE, specifically within (max 100 words)

- a) your 1st year
- b) long term

In my first year, I will start a coordination process for relevant initiatives to the Early Warning for All initiative which are being currently developed within the four pillars. Through this process, that would see me as a focal point in the Global board, ARISE will be in a better position to support UNDRR in furthering the initiative and its related projects globally while fostering new synergies between private sector members on this topic.

Long term, my vision is to create a fifth ARISE pillar related to Early Warnings for All that would bring together more private sector partners to share their knowledge and effectively support UNDRR initiatives.

NICOLÁS ORDÓÑEZ ORTEGA

Administrative Engineer – Ms Humanistic Studies

E-mail: nicolas.ordonez@antioquiapresente.org.co

Cell phone: (57) 3217607115

PROFILE

Social manager passionate about sustainable development and resilience. Professional in Administrative Engineering with a master's degree in Humanistic Studies, 9 years of experience in the public sector and 8 years in the nonprofit sector as president of NGO's. Leadership in non-profit organizations, relationship with enterprises and project management.

Knowledge and passion for sustainable development issues in the rurality, non-profit organizations, and public organizations. Experience in the restructuring of social organizations, working with communities and public procurement.

I am known for my leadership, innovation, and high capacity to build alliances. I always seek to generate strategic partnerships to develop programs and projects, increasing scope and impact.

WORK EXPERIENCE

- **ANTIOQUIA PRESENTE** – Executive director 2020 - 2023

Non-profit organization that promotes and develop resilient communities, societies, and territories.

Achievements:

- Create a high-level organizational structure to ensure the sustainability of the organization.
- Ask new questions to the team, board of directors and partners to build 2 new business models: disaster risk reduction and resilient infrastructure.
- Build a communication and marketing strategy to define focus, themes, and areas in which the Corporation wants to be known.
- Create the disaster risk and climate change intelligence area, generating systemic connections between a territorial development model, climate change and disaster risk management.
- Create the alliances and international cooperation area (collective leadership).
- Update the comprehensive care model of the organization, adding concepts of environment, sustainability, regenerative cultures, resilience, and disaster risk management.
- Create a Project Management Office (PMO).

NICOLÁS ORDÓÑEZ ORTEGA

Administrative Engineer – Ms Humanistic Studies

E-mail: nicolas.ordonez@antioquiapresente.org.co

Cell phone: (57) 3217607115

- **CORPOAYAPEL** – Executive Director. 2015 – 2020

Non-profit organization that promotes sustainable development in rurality.

Achievements:

- Develop a sustainable development model to be implemented by social organizations in rural areas (Ayapel, La Apartada, Isla Fuerte)
- Restructure the revenue model to achieve financial sustainability. In 4 years it went from an execution of US 200.000 dollars to US 7.000.000 dollars a year.
- In february of 2018 lead by Corpoayapel, we were able to declare the Ayapel Wetland Complex as a RAMSAR wetland.
- Establish alliances with entities with greater knowledge and experience in the country for the development of strategic programs, such as: WWF, Ramsar Convention, Conservation International, Ministry of Environment, Lego Foundation, Los Andes University, Antioquia University, CES University, SURA Foundation, Contreebute, Green Portfolio, Carulla Foundation, éxito Foundation, among others.
- Attention of 9.000 early childhood children under a pedagogical model considered by Unesco as the best in the world (Regio Emilia).
- Project to plant one million trees (Ayapel) and one million corals (Isla Fuerte)

- **CEIPA UNIVERSITY** – Innovation and leadership professor for Masters students. 2014 - 2015

- **ANTIOQUIA GOVERNMENT OFFICE** - Private Advisor of the Antioquia Governor Sergio Fajardo. January 2012 - September 2014

Achievements:

- Analysis and generation of content for the Governor's interventions.
- Accompaniment in meetings, events and visits to the rurality (125 municipalities).
- Administrative director of the Governor's office. Responsible for all his public procurement.
- Accompaniment to the Governor in the community contact.
- Deep knowledge of the Antioquia rurality and relationship with public and governing entities.

- **MEDELLÍN MAYOR'S OFFICE** - Private Advisor of the Medellín Mayor Alonso Salazar and director of Strategic Projects - June 2010 - December 2011

Achievements:

- Project Management of more than 200 strategic social infrastructure projects.
- Analysis and generation of content for the Mayor's interventions.
- Accompaniment in meetings, events and visits to the slums.
- Accompaniment to the Mayor in community contact.

3. Questionnaire

3.1 Please indicate any past or present affiliations and accomplishments related to Disaster Risk Reduction / Prevention / Resilience / Corporate Social Responsibility (CSR) / Environmental Social Governance (ESG) (max 200 words)

Antioquia Presente is a non-governmental organization with 40 years of experience. We promote and develop resilient communities, societies, and territories. We work through 3 lines and have had these accomplishments:

- **Disaster risk reduction** building back better 8.200 stronger and resilient infrastructures (houses and social infrastructure).
- **Reestablishing living conditions** after 72 disasters in Colombia and countries like Haiti. Social, economic and habitat interventions.
- **Managing 50 Environmental Social Governance (ESG) and Corporate Social Responsibility (CSR) projects.** Working with companies and Governments all around Colombia and 12 countries.

We develop projects through comprehensive practices that promote solidarity and encourage alliances between public and private organizations. We work to promote resilient development in Colombia and other countries. We work in four areas: social, economic, habitat and disaster risk management.

Our model of intervention works hand in hand with the communities, their traditions, knowledge, and their culture. We are moved by our work in the territories, and we interact with them in a resilient, regenerative, and conscious way. We do this under the pillars of transparency and accuracy.

3.2 Please specify if you have the decision-making and support capacities for ARISE within your company relating to at least one the four ARISE focus areas (SME resilience, investment, insurance, resilient infrastructure) at

a) Senior level (max 100 words each)

We have a senior team to work in resilient infrastructure and for SME resilience:

- Resilient and regenerative habitat coordinator
- Social and environmental coordinator
- Disaster Risk reduction coordinator

b) Technical level (max 100 words each)

We have a technical team to work in resilient infrastructure and for SME resilience:

- Retrofits of unsafe houses leader
- New resilient houses leader
- Social and environmental leader
- Solidarity leader
- Social risk reduction leader
- Enterprises risk reduction leader (vacant)

3.3 Please specify if you have the decision-making and support capacities within your company relating to other key areas such as Early Warning or Public-Private Partnership at national or local level (100 words)

We made the decision to participate in risk anticipation and not to work in early warnings. We have a data assimilation area that give us valuable information to act in any Colombian territory. This is a support area for all the coordinators and leaders of our entity.

We are an NGO in Colombia that almost always works in Public-Private Partnerships at the national, regional, or local level. This happens in 3 ways:

- After a disaster: we receive private donations and work together with the government building back better (stronger and resilient) a community.
- Enterprises and governments hire us to implement Environmental Social Governance (ESG) Corporate Social Responsibility (CSR) projects and disaster risk reduction projects.

3.4 Indicate if your company is affiliated with / member of any other global private sector networks such as the UN Global Compact, World Economic Forum (WEF), World Business Council for Sustainable Development (WBCSD) International Chambers of Commerce (ICC), or other private sector network, including of other UN agencies (please specify) (max 100 words each)

GNDR: is a global network of civil society organizations in 129 countries. We work together to strengthen the capacity of civil society organizations so that they can mobilize and increase the resilience of communities most at risk in disasters.

CATALYST 2030: is a global movement of people and organizations committed to achieving the UN Sustainable Development Goals (SDGS) by 2030. Joining forces with communities, governments, businesses and others. Catalyst 2030 members are changing systems at all levels through collective action and bold new strategies. Antioquia Presente is part of the Latin-America group and the disaster risk reduction global group.

3.5 Please list 3 goals which you would aim to achieve as Board Member of ARISE, specifically within (max 100 words)

- a) your 1st year
- b) long term

First year

- a. Improve communications and be more agile to inform what we are doing globally, regionally, nationally and locally. Using other social networks like Instagram that inspire more than the ones we currently use (Twitter and LinkedIn). We need more people involved in disaster risk reduction and make it trendy. Not only decision makers. We need more people working together if we want to act faster.
- b. Build an Arise portfolio with the capacities and value proposals of the members. In the first year we can do it in Latin-America and in the next 2 years do it globally.
- c. Develop a campaign to increase Arise members in 20%.

Long Term

- d. Build a portfolio of resilient and disaster risk reduction funds. And build mechanisms to connect the demand and the offer.
- e. Increase Arise members in 50%
- f. Influence the SDG agenda of UN, making resilience the base for sustainable development.

Note:

Please consider the responsibilities for Board members and the parameters for a Board member to be designated inactive as specified in the Board elections Standard Operating Procedure (SOP).

BIO

Nicole Boothman-Shepard is AECOM's Vice President and Senior Director for Resilience + Recovery. Nicole is passionate about partnering with communities on strategic risk reduction for shocks and stresses and facilitating equitable and transformative community development. She is AECOM's global advisor on disaster risk reduction.

Nicole is a national expert in federal policy including US OMB Uniform Guidance (2 CFR Part 200) and pre- and post-disaster funding awarded through FEMA, HUD, FHWA, and EPA. She has facilitated the award of \$8B in federal disaster funding for post-disaster stabilization and resilient recovery for public sector clients. Nicole spearheads program management on major and catastrophic recovery focusing on best-value building and infrastructure investments and all aspects of risk avoidance and mitigation.

Nicole provides strategic advisement on sustainable and resilient reconstruction to leverage social, economic, and environmental co-benefits. She is Vice-Chair of the Transportation Research Board's (TRB) Resilience Section which leads all emergency management and resilience committees for all modes. TRB is the transportation arm for the National Academies of Sciences. She is a contributing author of *Climate Change and the Built Environment* (ACEC 2022). Nicole was appointed by 3 executive administrations as Executive Director of the Rhode Island Service Alliance with a dual appointment as the State's Vulnerable Populations Coordinator for RI Emergency Management Agency for a 7-year term prior to joining the private sector.

AECOM EXPERIENCE

AECOM Disaster Resilience Solutions PMO (enterprise-wide)

Technical Lead for Disaster Resilience, Response and Recovery

Provide leadership on global innovation, client engagement, strategic positioning, and delivery excellence.

Federal Funding Lead. Spearheads development of resources to promote expert-level understanding of federal awards for eligibility, funding, and compliance. Supports performance of AECOM's cadre of federal funding and compliance technical specialists and subject matter experts deployed projects across the US for federal grants management work. Promotes skill and engagement of AECOM federal funding cadre through peer-network collaboration and exchange and high-frequency training on law, regulation, and policy. Guides quality assurance to promote consistent quality. [2018-Present]

Contributing author. *Climate Change and the Built Environment* (ACEC 2022): Resilience Chapter and Resilience Case Study. Comprehensive case study-oriented content for practitioners on best practices for climate risk assessment and adaptation strategies with a focus on the triple bottom line of community quality of life, sustainability, and economic stability and growth. Written by a team of women authors.

CLIENT ADVISEMENT

City of Detroit. Program Director. Advises the City on strategic investment of \$826M in ARPA funding and \$500M in matching funds to promote equity and multi-generational impact for Detroiters as well as facilitate efficient program and end-to-end grants management and Federal compliance on 100 programs and over 4000 sites.

Multiple water utility clients, Nationwide. Executive Advisor. Advises on resilience strategy, funding, procurement, contracting, compliance, funding optimization, and project prioritization.

Government of the US Virgin Islands. Executive Advisor. Advised agencies within the Territory's government on FEMA Public Assistance response and recovery for Category 5 Hurricanes, Irma, and Maria. Supports all aspects of law, regulation, policy, and compliance on over \$1B in awards. Oversaw the USVI's \$7B cost estimate developed for Congress on Irma and Maria. Advised USVI Commissioners of schools, housing, and property and procurement on FEMA PA. [2017-present]

Transportation Research Board NCHRP 08-107. Principal Investigator + Project Director. *A Contracting Strategies Guidebook for the Administration of Concurrent, Regional Emergencies*. Leading applied research for the Transportation Research Board on optimum Federally-funded procurement, contracting, and project delivery response and recovery strategies when multiple critical transportation corridors are catastrophically compromised in disaster. [2018-present]

Miami + The Beaches 100RC Strategy, SME. Developed resources for Resilient 305 Strategy and update including the *Guide to Pre-Planning for Post-Catastrophe*, facilitating functional exercises on lifeline restoration and community habitability, and presenting information on key changes to Federal disaster funding and innovative financial tools such as parametric insurance.

Colorado DOT, CO. Executive Advisor to CFO, and Chief Engineer. Provided facilitation and capacity building support for CDOT's Emergency Procedures Leadership Working Group to identify, develop and institutionalize best practices and business processes to improve agency-wide disaster resilience capabilities for procurement and contracting, field technology, emergency management, finance, engineering, and maintenance. [2016-2018]

Louisiana GOHSEP, Shelter at Home Program (FEMA STEP), LA. Technical Expert. Developed and monitored performance of FEMA Public Assistance Program compliance involving over 130 laws and regulations, as well as key policy provisions for FEMA including STEP Guidance. [2016-2017]

Colorado DOT Flood Recovery, CO. Federal Highway Administration (FHWA) Emergency Relief and FEMA Public Assistance. Senior Policy Advisor. Guided CO Department of Transportation's Incident Commander and CFO on strategic, operational, and tactical delivery of \$720M FHWA ER flood recovery program and FEMA PA Debris Management. Focused on federal disaster funding, audit and political risk mitigation, federal compliance, project delivery strategies, and data management. Evaluated proposed resiliency betterments under FHWA ER. [2013-2016]

Sandy Recovery, New York. Subject Matter Expert. Provided strategic support to staff and clients on Sandy FEMA and other funded recovery, vulnerability analyses, green infrastructure, and building mitigations to protect against future events. Diverse client base includes NY State, New York City, transit, housing, banking, and finance. [2012-2013]

Sandy Recovery, MTA Bridges & Tunnels, New York. Subject Matter Expert. Identified and facilitated presentation of \$750M in FEMA Public Assistance funded Sandy recovery on the Brooklyn Battery and Queens-Midtown Tunnels as well as MTA bridges. Assessed resiliencies, considered expedited project delivery models and the FEMA Pilot program, and ensured procurement, contracting and grants aligned with fed laws. [2012-2013]

Katrina Recovery, New Orleans Schools, Louisiana. Disaster Resilience Lead / Subject Matter Expert. Successfully spearheaded LA Dept. of Education's Recovery School District and Orleans Parish School Board's \$2B FEMA Public Assistance Program settlement with FEMA and OMB on New Orleans public schools' eligibility for Katrina damages, including the single largest Public Assistance grant in FEMA history of \$1.3B. Settlement was culmination of 12 months of intensive strategic positioning and entrepreneurial policy approaches resulting in 400% increase in FEMA funding for clients. Negotiated complex policy and tactical/change management solutions with FEMA Region VI, State Office of Community Development (CDBG grantee) and GOHSEP (State emergency management grantee) on funding, compliance and risk-management matters related to RSD's \$1.8B in FEMA and CDBG capital program for 89 schools. Facilitated streamlined FEMA/SHPO historic reviews to successfully rehabilitate 50 historic K-12 campuses to Secretary of Interior Standards and LEED Silver. [2008-2012]

FEMA Headquarters, Washington DC. Project Manager. Developed FEMA's Public Assistance Program Organizational Structure for 3 scales of disasters for deployments of up to 5000 personnel resources per event per Region. Developed efficiencies for modular and scalable organizational structure and brought FEMA PA deployments into compliance with the Incident Command System [2006-2007]

FEMA Headquarters, Washington DC. Project Manager. Led reorganization of FEMA disaster planning cadre for long-term community recovery including cadre selection criteria, performance monitoring, and development of job aids and other tools. [2006-2007]

FEMA Region VI: Katrina/Rita Recovery. Louisiana. Policy & Congressional Affairs Specialist. Interpreted FEMA PA policy on behalf of FEMA Region VI and recommended policy determinations on appeals. Drafted responses to Congressional questions on Katrina recovery. PAC Crew leader. Developed Baseline Cost Generator to rapidly assess and obligate \$360M in FEMA PA funding for k-12 and higher education on disaster damaged facility contents including FFE. [2006-2007]

Rhode Island Service Alliance. Executive Director. Led State agency to activate the spirit of service and volunteerism and promote achievement of 19,000 children. Oversaw \$MM grant competitions, project oversight, and audits for AmeriCorps and K-12 programs. Shaped innovative programs – e.g., enabled teachers to promote positive social change through service while providing master's degree coursework with universities; engaged community police, social workers, and parole officers in community mediation and Kingian non-violence techniques to collaborate on neighborhood health teams; developed non-profit executive and emerging leaders program with Brown U. and the RI Foundation. [1998-2004] [Deputy Director 1997-1998]

I have supported DRR as a practitioner, researcher, educator, and innovator.

I have facilitated the award of \$8B in federal disaster funding for post-disaster stabilization and resilient recovery for US and CA public sector agencies.

I bring over 15 years of post-disaster field leadership and completed programs for New Orleans Schools (Katrina), NY MTA (Sandy), community recovery in Greensburg, KS (F5 tornado), Transportation in CO (2013 floods), Citywide in Calgary (2013 floods), and schools and housing in USVI (Irma and Maria).

I am Vice-Chair of the Transportation Research Board's (TRB) Resilience Section which leads all emergency management and resilience committees for all modes. TRB is the transportation arm for the National Academies of Sciences.

I am a co-author of the resilience chapter for *Climate Change and the Built Environment* (ACEC 2022).

Prior to joining the PS, I was Vulnerable Populations Coordinator for RI Emergency Management Agency for 7 years.

I am engaged in ESG work within AECOM as well as ED&I initiatives.

3.2 Please specify if you have the decision-making and support capacities for ARISE within your company relating to at least one the four ARISE focus areas (SME resilience, investment, insurance, resilient infrastructure) at

a) Senior level (max 100 words each)

SME resilience. Yes. I am the enterprise-wide technical lead for disaster resilience and recovery. As such, I can reach into the organization to leverage our global innovation, learning, and best practices as well as use cases. AECOM has over 1200 personnel from around the globe who caucus as climate adaptation practitioners and hundreds of experienced disaster cadre members with deep in-field disaster experience.

Resilient infrastructure. Yes. AECOM is a global leader in resilient infrastructure and climate adaptation. We work across the lifecycle at a meta-level for code and consensus standards development and have deep programmatic experience in resilience planning, design, construction, and asset management for water, transportation, buildings and places, energy, and environment. I can leverage use cases that from across the globe that showcase this work (e.g., resilient asset

2023/05/31	<p style="text-align: center;"> ARISE Board Elections Self-nomination Form (deadline for submission: 21 June 2023) </p>

Page 3 of 4		

performance standards). I hope to redouble AECOM's partnership with UNDRR and expand our engagement with ARISE to bring forward our experience to help accelerate the implementation of the Sendai Framework for Disaster Risk Reduction.

b) Technical level (max 100 words each)

SME resilience. Yes.

Investment. Yes.

Insurance. Yes.

Resilient infrastructure. Yes.

AECOM works closely in each for 4 referenced ARISE focus areas. I can tap into AECOM's experience, technical expertise, and capabilities to promote problem-solving and innovative solutions. This can take the form of use cases, planning charettes, webinars, dissemination of tools, and other resources in service to the work of ARISE in support of UNDRR and the acceleration of the implementation of the Sendai Framework for Disaster Risk Reduction. This work is in close alignment with AECOM's mission to Deliver a Better World, our Sustainable Legacies Strategy, and our role as a global leading ESG firm.

3.3 Please specify if you have the decision-making and support capacities within your company relating to other key areas such as Early Warning or Public-Private Partnership at national or local level (100 words)

AECOM is a leader in P3 in transportation, buildings, energy, and water. We have supported 650 P3 projects globally as contractor, designer, technical advisor, and/or provide financing involving technical, economic and contractual expertise across all asset classes and P3 markets. This group has certain firewalled responsibilities so I would request support for ARISE from the AECOM P3 group. I am cautiously optimistic that this group would share use cases, offer webinars, or other support in line with AECOM's Sustainable Legacies Strategies.

AECOM has minimal engagement in early warning systems outside of transportation information management systems.

3.4 Indicate if your company is affiliated with / member of any other global private sector networks such as the UN Global Compact, World Economic Forum (WEF), World Business Council for Sustainable Development (WBCSD) International

2023/05/31	<p style="text-align: center;">ARISE Board Elections Self-nomination Form (deadline for submission: 21 June 2023)</p>

Chambers of Commerce (ICC), or other private sector network, including of other UN agencies (please specify) (max 100 words each)

In 2021, AECOM reported US engagement with the following:

Business Roundtable

US Chamber of Commerce

American Road and Transportation Builders Association (ARTBA)

American Association of State Highway Transportation Officials (AASHTO)

American Council of Engineering Companies (ACEC)

American Public Transportation Association (APTA)

Intelligent Transportation Society of America (ITSA) - AECOM takes its responsibilities as a global leading ESG firm seriously. We are engaged with literally hundreds of global non-profit networks (including professional associations) and private sector networks. We support trade associations and other industry groups that represent a broad spectrum of views on infrastructure and range of associations and coalitions that allow us to share policy insights and learn (from and with) our peer companies and clients, and jointly advocate for policies that support a healthy and competitive industry.

3.5 Please list 3 goals which you would aim to achieve as Board Member of ARISE, specifically within (max 100 words)

a) your 1st year

b) long term

A) your 1st year

1. **Build relationships across ARISE.**

2. **Lead with examples** of resilience success. Catalogue and educate on effective practices that are replicable, inspiring, sustainable to propel us forward in accelerating risk reduction at scale.

3. **Elevate "leave no one behind."** Promote equity across ARISE. Encourage stakeholder consultation as a key part of multi-sector solutions.

B) long term

1. **Promote a culture of relentless optimism.** Activate the PS to transform DRR.

2. **Unlock the Power of the PS.** Leverage expertise and resources to model and drive DRR.

2. **Reimagine whole of community.** Leverage the PS as part of a "resilience force for good."

Note:

Please consider the responsibilities for Board members and the parameters for a Board member to be designated inactive as specified in the Board elections Standard Operating Procedure (SOP).

CURRICULUM VITAE:

I) PERSONAL INFORMATION:

Name: LEONARDINI RUBÉN PABLO

ID: 17.321.094

Place and date of birth: Sunchales, Provincia de Santa Fe. 17/05/65

Work information: Management. Grupo Sancor Seguros

Company: Grupo Sancor Seguros. Seniority 32 years.

Engineering School Enrolment: N° 14.095

Ministry of Labour and Social Security Enrolment: N° 2.801

Engineers Registration Bored of Specialists. Occupational Engineer N°1.1371.9

Engineers Registration Bored of Specialists. Environmental Safety Engineering N° 1.1372.7

Individual Consultant, Environmental Impact Studies Enrolment, Ministry of Health and Environment. National Secretariat of Environment and Sustainable Development. Enrolment N°: 384

Member of ARISE Argentina as Projects Director. ARISE (Private Sector Alliance for Disaster Resilient Societies) UNDRR area (United Nations Office Disaster Risk Reduction).

II) QUALIFICATIONS:

- **ELECTROMECHANICAL ENGINEER:** issued by the National Technological University, Rafaela. Date: September 19th 1988.
- **OCCUPATIONAL ENGINEER:** issued by the National Technological University, Regional Faculty Santa Fe. Date: July 8th 1994.
- **MASTERS DEGREE IN INDUSTRIAL HYGIENE:** issued by the Argentinian Institute of Security. Date: February 18th 1995.
- **ENVIRONMENTAL SAFETY ENGINEER:** issued by the University of Merchant Marine, Engineering School, Buenos Aires. Date: March 12th 1998.
- **ENVIRONMENTAL ENGINEERING SPECIALIST:** issued by the National Technological University, Faculty Santa Fe. Date: June 17th 2005
- **GRADUATE IN EDUCATIONAL TECHNOLOGY:** UTN Regional Faculty Rafaela. December 2013.
- **OCCUPATIONAL TOXICOLOGY SPECIALIST:** U.T.N. Mendoza. October 2007
- **PROFESSOR, U.T.N. Rafaela Faculty.** Subject: Hygiene and Safety and Environmental Protection. Majors: Electromechanical Engineering, Industrial Engineering, Bachelor's Degree in Industrial Organization.
- **PROFESSOR POSTGRADUATE DEGREE IN HYGIENE AND SAFETY U.T.N.** Regional Faculty Rafaela, Santa Fe Province.
- **PROFESSOR POSTGRADUATE DEGREE IN HYGIENE AND SAFETY U.T.N.** Santa Fe, Santa Fe Province.
- **PROFESSOR POSTGRADUATE DEGREE IN HYGIENE AND SAFETY U.T.N.** Paraná, Entre Rios.
- **PROFESSOR Universidad del Salvador.** Postgraduate area. Buenos Aires. Argentina.
- **Academic Director Postgraduate Degree in Hygiene and Safety. UTN.** Regional Faculty, Rafaela.

- **VOLUNTEER FIREFIGHTER.** Training Instructor. At present: retired.
- **Currently attending the Bachelor's Degree in Philosophy.** Catholic University of La Plata.

III) TRAINING COURSES:

- **SEMINARIO INTRODUCCIÓN A LOS MICROPROCESADORES.** U.T.N. Rafaela. November 1985.
- **CORSO CONVERSAZIONE DI LINGUA E CULTURA ITALIANA.** “Dante Alighieri” School Rafaela. 1990.
- **9° CONGRESO INTERPROVINCIAL TÉCNICO PRÁCTICO DE BOMBEROS VOLUNTARIOS “TÁCTICAS II”.** Sunchales. August 1992.
- **SEMINARIO DE INVESTIGACIÓN DE INCENDIOS.** Villa Carlos Paz. Córdoba. August 1992.
- **ATAQUE DE INCENDIOS CON EXTINTORES.** Santa Fe. November 1992.
- **SEMINARIO INTERNACIONAL “BASIC FIRE INVESTIGATION”** Villa Carlos Paz, Córdoba. March 1993.
- **TOMA DE DECISIONES Y PLANEAMIENTO.** Consejo Federación Argentina de Bomberos Voluntarios. Santa María de Buenos Aires. March 1993.
- **MANIPULACIÓN Y TRANSPORTE DE MATERIALES PELIGROSOS.** Universidad of Texas A&M.U.S.A. July 1993.
- **HOMBRES Y SOCIEDAD-RELACIONES HUMANAS.** Sunchales. Santa Fe August 1993.
- **SEMINARIO TÉCNICAS DE PERITACIÓN Y TASACIÓN DE SINIESTROS DE AUTOMOTORES.** Itsemap Austral. Buenos Aires, August 1993.
- **PREVENCIÓN DE SINIESTROS DE INCENDIO.** ADIRA, Rosario. October 1993.
- **INSPECCIÓN Y EVALUACIÓN DE RIESGOS DE ACCIDENTES DE TRABAJO.** Itsemap Austral. Buenos Aires, October 1993.
- **TÉCNICAS EN CAPACITACIÓN DE ADULTOS, FORMACIÓN DE INSTRUCTORES.** Cámara Junior de Rosario, Casilda. October 1994.
- **ENCUENTRO LATINO-AMERICANO DE SEGURIDAD EN EL TRABAJO.** Siderca SAIC. November 1994.
- **MATERIALES PELIGROSOS –HAZMAT.** Federación Bonaerense de Asociaciones de Bomberos Voluntarios de la Pcia. de Bs. As. June 1995.
- **CONGRESO TÉCNICO SOBRE HIDROCARBUROS,** Galvez. August 1995.
- **INVESTIGACIÓN DE SINIESTROS.** Congreso Nacional Roldán. October 1995.
- **RIESGO AGRARIO.** Congreso Provincial de Bomberos Voluntarios Sunchales.
- **HOMOLOGACIÓN DE PERITOS.** CESVI Argentina. Pilar Bs.As. June 1996.
- **19° CONGRESO PROVINCIAL DE BOMBEROS VOLUNTARIOS “CONTROL DE RIESGOS DE ACCIDENTES MAYORES (PNUMA)”** Capitán Bermúdez. June 1996.
- **DISEÑO E INSPECCIÓN DE REDES DE AGUA CONTRA INCENDIOS Y ROCIADORES AUTOMÁTICOS.** Itsemap Austral S.A. Bs.As. August 1996.

- **RELEVAMIENTOS DE DATOS DE ACCIDENTES DE TRÁNSITO .** CESVI Argentina. Pilar Bs.As. August de 1996.
- **INVESTIGACIÓN TÉCNICA DE SINIESTROS DE INCENDIO.** Itsemap Austral S.A. Bs.As. September 1996.
- **2° CONGRESO INTERPROVINCIAL TEÓRICO-PRÁCTICO PARA BOMBEROS VOLUNTARIOS “FUNCIÓN DE BOMBEROS EN DESASTRES O CATÁSTROFES”** San Vicente, Santa Fe. October 1996.
- **“PRIMER ENCUENTRO DE PRESTADORES DE HIGIENE Y SEGURIDAD DE PREVENCIÓN ASEGURADORA DE RIESGOS DEL TRABAJO S.A.”** Sunchales Santa Fe. April 1997.
- **“SEMINARIO SOBRE PROTECCIÓN RESPIRATORIA”** Santa Fe. April de 1997.
- **“ACTUALIZACIÓN DE PERITOS”** CESVI, Pilar (Bs. As.) October 1997.
- **“ACTUALIZACIÓN DE PERITOS”** CESVI, Pilar (Bs.As.) April 1998
- **“SEGUNDO ENCUENTRO DE PRESTADORES DE HIGIENE Y SEGURIDAD DE PREVENCIÓN ASEGURADORA DE RIESGOS DEL TRABAJO S.A.”** Sunchales (Santa Fe) June 1998
- **“JORNADA DE INTERPRETACIÓN DE ESTADÍSTICAS DEL SISTEMA CESVICOM”** CESVI Pilar (Bs.As.) August 1998.
- **SIMPOSIO INTERNACIONAL SOBRE SEGURIDAD, PREVENCIÓN DE RIESGOS DEL TRABAJO Y SALUD OCUPACIONAL”** INSTITUTO ARGENTINO DE SEGURIDAD. Bs.As. April 1999.
- **CURSO SOBRE AGENTES FISICOS EN EL HIGIENE INDUSTRIAL.** INSTITUTO ARGENTINO DE SEGURIDAD. Bs. As.. April 1999.
- **“ACTUALIZACIÓN DE PERITOS”** CESVI Pilar (Bs. As.) September 1999.
- **“INVESTIGACIÓN TÉCNICA DE SINIESTROS”** MAPFRE RE Bs.As. May 2000.
- **HAZARDOUS MATERIAL OPERATIONS-** Instituto Superior de ciencias Económicas y Tecnologías. Córdoba September 2000.
- **1ER. CONGRESO INTERNACIONAL DE ACCIDENTOLOGÍA DEL MERCOSUR. “EDUCAR PARA PREVENIR”** Rosario (Santa Fe) October 2000.
- **“ACTUALIZACIÓN DE PERITOS 2000”** CESVI Pilar (Bs.As.) December 2000.
- **“NUEVAS MODALIDADES DE FRAUDE EN SEGUROS ,PREVENCIÓN, DETECCIÓN Y TRATAMIENTO DE FRAUDES. INVESTIGACIÓN DE SINIESTROS”.** ASOCIACIÓN ARGENTINA DE COMPAÑÍAS DE SEGUROS. Bs.As. March2001.
- **SEMINARIO “EL FRAUDE EN ACCIÓN”** Bs.As. September 2001.
- **“GESTIÓN EN EL TRANSPORTE DE DE MERCANCÍAS PELIGROSAS”** Subsecretaría de Transporte de la Provincia de Santa Fe y Fundación Aprender. Santa Fe. September2001.
- **2° JORNADA INTERNACIONAL SOBRE FRAUDE EN EL SEGURO AUTOMOTOR.** CESVI. Pilar (Bs.As.) October 2001.
- **1° JORNADA INTERNACIONAL DE SEGURIDAD VIAL .**CESVI. Pilar. Bs.As. November 2001
- **“RELEVAMIENTO DE DATOS DE ACCIDENTES DE TRÁNSITO”** CESVI. Pilar Bs.As. October 2002.

- **3° JORNADA INTERNACIONAL SOBRE FRAUDE EN EL SEGURO – CESVI** Pilar Bs.As. October 2002.
 - **“CURSO ANUAL DE JEFES DE PERITOS 2002”** CESVI Pilar Bs.As... December 2002.
 - **ANÁLISIS DE RIESGOS INDUSTRIALES. SINIESTROS CATASTRÓFICOS INDUSTRIALES Y CLIMÁTICOS.** Münchener Rii. Munich, Germany. October 2003.
 - **RIESGO EN LA CONSTRUCCIÓN. RESPONSABILIDAD CIVIL DE LA CONSTRUCCIÓN. SEGUROS DE RC CONSTRUCCIÓN.** Mutual Mapfre Industrial. Madrid, Spain. October 2003.
 - **ROTURA DE MAQUINARIAS. SEGURO TÉCNICO.** Mapfre. Madrid, Spain. October 2003.
 - **SINIESTROS DE SEGUROS TÉCNICOS.** Muchener Rii. Buenos Aires. April 2004.
 - **SEMINARIO INTERNACIONAL DE MEDIO AMBIENTE:** Sao Paulo, Brasil. November 2004. Attendance as speaker regarding “Decomposition of oil contaminated with PCBs”.
 - **2° Taller Federal de Actualización Normativa en Materia de Transporte de Tránsito de Mercancías y Residuos Peligrosos.** Santa Fe May 2006.
 - **Prevención de Accidentes Ambientales. Buenos Aires. June 26th 2007. Gerencia-Ambiental.**
 - **Investigación Técnica de Siniestros de Incendio.** 23rd and 24th July 2007. Buenos Aires.
 - **Seminario Internacional de Fraude.** Buenos Aires. December 5th 2007.

2023/05/31	ARISE Board Elections Self-nomination Form (deadline for submission: 21 June 2023)	
PU-BENF		
Revision: 1		
Page 1 of 4		

1. Basic information

1.1 Nominee's name:

RUBEN PABLO LEONARDINI

1.2 Title:

ELECTROMECHANICAL ENGINEER, OCCUPATIONAL ENGINEER, ENVIRONMENTAL SAFETY ENGINEER, EDUCATIONAL TECHNOLOGY ENGINEER, BACHELOR IN PHILOSOPHY (STUDENT).

1.3 Company:

GRUPO SANCOR SEGUROS. ARGENTINA

1.4 ARISE member since (specified in the ARISE welcome letter):

ARISE Argentina creation 2019. Role: PROJECT DIRECTOR

1.5 Current ARISE Board member:

☐ Yes

If "Yes":

First term

Second term

No ☒ X

1.6 Network or individual member:

Network Member: My network leader has endorsed my application.

If "Network Member," please specify [which network](#):

Yes, my network leader, Mr. Marcelo Rozas Garay, of ARISE Argentina, endorsed my application.

Individual Member (i.e. no network affiliation)

PU-BENF		
Revision: 1		
Page 2 of 4		

2. Curriculum Vitae

2.1 PLEASE ATTACH YOUR CV OR RESUME TO THIS SELF-NOMINATION FORM.

3. Questionnaire

3.1 Please indicate any past or present affiliations and accomplishments related to Disaster Risk Reduction / Prevention / Resilience / Corporate Social Responsibility (CSR) / Environmental Social Governance (ESG) (max 200 words)

From the development of the Disaster Risk Reduction Platform in Argentina, in 2009, on behalf of Grupo Sancor Seguros, I have been taking part of every meeting in Argentina as well as different platforms in America, Geneva, the signing of the Sendai protocol in Japan, among others.

I took part in the : **Third session of the Open-ended Intergovernmental Expert Working Group (OIEWG)** on Terminology and Indicators related to Disaster Risk Reduction. Geneva from September 2.015 a October 2016. On behalf of the private sector.

I gave lectures in several RRD and Arise platform meetings.

3.2 Please specify if you have the decision-making and support capacities for ARISE within your company relating to at least one the four ARISE focus areas (SME resilience, investment, insurance, resilient infrastructure) at

a) Senior level (max 100 words each)

I have been working in Grupo Sancor Seguros for 32 years. Currently, and for 11 years, I am a manager. This insurance company leads the ranking in the insurance business in terms of development and amount of policy holders. It has always supported the UN RRD and Global Compact Platforms from which we are part of. We have also been council members.

From the sector we have been in charge of several ventures, mostly in order to support small and medium farmers in Argentina and Paraguay. In Uruguay we have been part of a pilot test for small breeders as a production stabilization tool. Together with the Ministry of Agriculture, Livestock and Fisheries following the strategic line in terms of climate change adaptation, sustainable intensification and rural development of UN.

We understand that the insurance system is suitable for risk transfer. In the light of the current climate change and the increasing intensity of environmental disasters (droughts, hail, early frosting, storms, etc) customized insurance is an urgent and necessary tool.

2023/05/31	ARISE Board Elections Self-nomination Form (deadline for submission: 21 June 2023)	
PU-BENF		
Revision: 1		
Page 3 of 4		

We need to transfer all our experience to the rest of the countries with similar problems, adapting it to specific situations. And ARISE is the proper context to share information with the rest of the platforms.

b) Technical level (max 100 words each)

3.3 Please specify if you have the decision-making and support capacities within your company relating to other key areas such as Early Warning or Public-Private Partnership at national or local level (100 words)

From our company, we have been taking part, from the very beginning, in different agriculture and insurance associations. And there, we could highlight the collaboration of public and private sectors in order to solve specific and generic situations regarding the area.

Grupo Sancor Seguros, as the most important insurance company in the country, has a permanent and collaborative role with the public sector. Our participation is proof of that.

3.4 Indicate if your company is affiliated with / member of any other global private sector networks such as the UN Global Compact, World Economic Forum (WEF), World Business Council for Sustainable Development (WBCSD) International Chambers of Commerce (ICC), or other private sector network, including of other UN agencies (please specify) (max 100 words each)

Grupo Sancor Seguros is enrolled in:
 United Nations Global Compact
 International Cooperative and Mutual Insurance Federation
 International Cooperative Alliance
 The Geneva Association
 Latin American Association for the Development of Agriculture Insurance
 Pan American Finance Association
 Ibero American Foundation of Occupational Safety and Health

Among other things

2023/05/31	<p style="text-align: center;">ARISE Board Elections Self-nomination Form (deadline for submission: 21 June 2023)</p>	
PU-BENF		
Revision: 1		
Page 4 of 4		

3.5 Please list 3 goals which you would aim to achieve as Board Member of ARISE, specifically within (max 100 words)

a) your 1st year:

b) long term

a) Your 1st year:

- promote dissemination of insurance role as a risk transfer tool
- promote meetings with public sector in order to start developing specific insurance coverage
- share with every ARISE organization the problems and solutions of insurance as a tool using the Disaster Risk Reduction Platform

b) long term

- achieve, together with the public sector, a training program for small farmers and SMEs, as regards the necessity of an insurance coverage to get help when a disaster occurs.
- Develop insurance programs for each activity and region in order to face the main climate risks
- support the public sector in order to design an insurance program and a proper legal framework so the system can last over time. The aim is to protect and ensure the continuity of agricultural, livestock and forestry exports before possible damage caused by climate misfortune
- Design an integral system containing statistical information regarding damage, loss, climate variations, hydrometric behavior of rivers and lakes, etc. so climate risk can be estimated more precisely in order to design early improvements (financial, insurance, operative and communal)

Note:

Please consider the responsibilities for Board members and the parameters for a Board member to be designated inactive as specified in the Board elections Standard Operating Procedure (SOP).

Satoshi Hijikata

President, Kokusai Kogyo Co., Ltd.

Satoshi Hijikata joined [Kokusai Kogyo Co., Ltd.](#) in 1985.

In 1997, Hijikata became executive officer, and then executive director, after holding management positions in Kokusai Kogyo's domestic Commercial Ports, Fishing Ports, and Seashores Division (Engineering Section, West Japan Branch) and the Strategic Planning Division (Local Government Support Section).

Hijikata then served as managing director of one of Kokusai Kogyo Group's international group companies, GEOSOL Beteiligungsgesellschaft mbH, Germany, from 2009 to 2012.

After returning to Kokusai Kogyo as executive officer, Hijikata has been appointed President of Kokusai Kogyo Co., Ltd. in May 2013.

Hijikata is serving as vice-chair of the [Association of Precise Survey and Applied Technology](#) since 2014, board member of the [Engineering and Consulting Firms Association](#) since 2014, and board member of [Japan Civil Engineering Consultants Association](#) since 2014. Hijikata has served on the ARISE Board since 2020 and is also serving on ARISE Japan's steering committee since 2021.

Hijikata graduated from Tokai University, School of Marine Science and Technology, Department of Marine Mineral Resources, in 1985.

He holds qualifications as GIS engineer (Spatial Information Specialist, Japan Association of Surveyors), Professional Engineer (comprehensive technical management; civil engineering – harbor and airports), professional surveyor, and Special Radio Operator.

Hijikata is 61 years old.

Kokusai Kogyo Co. Ltd. is a leading Japanese engineering consultancy and project management specialist and solution services provider in [geospatial information](#), [disaster risk reduction management](#), [infrastructure development & management](#), and [urban development & management](#), combining information communication services and GIS to meet the challenges of climate change by becoming smarter and greener.

As a member of the Global Compact, Kokusai Kogyo operates with SDGs and GC Ten Principles at the core of corporate management.

As CSR, Kokusai Kogyo conducts aerial photos and conduct damage assessment for major domestic disasters, and make them aerial photos available to everyone immediately, without cost via [its website](#). Its business resilience strategy has won a national resilience certification in 2016.

Kokusai Kogyo and UNDRR:

Kokusai Kogyo is a member of **ARISE** since 2015.

It was also member of UNISDR Disaster Risk Reduction Private Sector Partnership (DRR-PSP) from 2013-2015. The Chairperson and CEO of Kokusai Kogyo, Sandra Wu, served on the UNISDR Private Sector Advisor Group (PSAG) 2011-2015 and was its Chair from 2013-2015.

Kokusai Kogyo co-edited a UNDRR publication [Private Sector Strengths Applied](#) in 2013.

Kokusai Kogyo helped launch **ARISE Japan** in 2015 as its focal point and secretariat. It continues to serve as secretariat under the new Lead, member-elected in 2019. Kokusai Kogyo also served as focal point and ARISE contact point for the Asia region while the position existed, from 2015 to 2018.

Kokusai Kogyo contributed to **3WCDRR** (2015) by co-hosting of an official reception with Sendai City, hosting a study tour, booths at two venues, and numerous speaking slots. Hijikata was panelist on a public forum organized by Sendai City. Kokusai Kogyo has participated in every Global Platform since 2011 and Asia Ministerial Conferences since 2012

Kokusai Kogyo has fulfilled their 2019 [Sendai Framework Voluntary Commitment](#) in 2022. .

Kokusai Kogyo and UN Global Compact:

Kokusai Kogyo joined **UN Global Compact** in 2013; co-started and running the **DRR Working Group** within Global Compact Japan Network since 2014; joined the Caring for Climate initiative in 2015; Climate Adaptation Champion in 2016; 1.5 degree SBT validated in 2021. Chairperson and CEO of Kokusai Kogyo, Sandra Wu, currently serves on the **UN Global Compact Board**.

Kokusai Kogyo and DRR organizations in Japan:

Kokusai Kogyo seconded **Japan Bosai Platform (JBP)**'s first Secretary General 2016-2019. JBP is an industry- academia- government collaboration platform focused on disaster risk reduction. Through JBP, Kokusai Kogyo has contributed to Japan-India bilateral resilient infrastructure workshops and conferences in 2018 and 2019.

Kokusai Kogyo's Sandra Wu is member of the **Advisory Committee on National Resilience (Disaster Reduction and Mitigation)** of the Cabinet Secretariat, Japan since 2019.

2. Curriculum Vitae

2.1 PLEASE ATTACH YOUR CV OR RESUME TO THIS SELF-NOMINATION FORM.

3. Questionnaire

3.1 Please indicate any past or present affiliations and accomplishments related to Disaster Risk Reduction / Prevention / Resilience / Corporate Social Responsibility (CSR) / Environmental Social Governance (ESG) (max 200 words)

I began my career at Kokusai Kogyo as a marine engineer, working on DRM solutions for harbors and ports. Since 2013, as president, I oversee our entire range of technological solutions, including DRR and DRM. I have served as liaison to the government emergency task force for every major disaster since the Hanshin Kobe Earthquake in 1995, at local, prefectural, or national level, depending on the disaster.

I learned how DRR and climate change interact in practice and policy, as managing director of a German solar energy company.

During my first term as ARISE Board member, I served on the KPI task team, task teams planning ARISE sessions at GP22 and ARISE AGMs (2022, 2023), worked on the revised ARISE Network Starter Kit. I helped plan, and gave welcoming remarks, at the private sector stakeholder meeting at APMCDRR22, as well as various ARISE Japan meetings and symposiums. I believe I have fully contributed to ARISE and UNDRR during my first Board term as a willing worker and heavy-lifter behind the scenes, and active steering committee member for ARISE Japan.

In summary, I bring you a thorough knowledge of DRR in Japan, combined with global awareness and a willingness to contribute.

3.2 Please specify if you have the decision-making and support capacities for ARISE within your company relating to at least one the four ARISE focus areas (SME resilience, investment, insurance, resilient infrastructure) at

a) Senior level (max 100 words each)

Yes. **Resilient infrastructure** is one of Kokusai Kogyo's core business areas. I bring my experience in running the technical side of a business that provides technical DRR and DRM solutions. We have multiple technical and senior level people working on resilient infrastructure solutions, and a constantly evolving track record in Japan.

I am serving across various DRR-related industry and business associations in Japan, and have a working relationship with key government and local government actors in DRR. I will advocate for ARISE through these capacities, and bring my knowledge of Japanese DRR experience and good practices to ARISE and the ARISE Board.

2023/05/31	<p style="text-align: center;">ARISE Board Elections Self-nomination Form (deadline for submission: 21 June 2023)</p>	
PU-BENF		
Revision: 1		
Page 3 of 4		

b) Technical level (max 100 words each)

Yes. Geospatial information technology is key, in every step of disaster mitigation, response, rescue, and recovery and building back better, and for decision-making when **investing in resilience**, i.e. to **all ARISE priority areas**. We are specialists with high technical capacities.

Geospatial information technology and tools such as GIS are very important for **insurance** (in assessing risk), for early warning, for the design/planning and efficient O&M of **resilient infrastructure**.

I bring, through my position in the company, the capacity to discuss and input in depth, the myriad of soft technology solutions that support and complement resilient infrastructure.

3.3 Please specify if you have the decision-making and support capacities within your company relating to other key areas such as Early Warning or Public-Private Partnership at national or local level (100 words)

Yes. As noted above, geospatial information technology is Kokusai Kogyo's forte, and we work with both local and national government in the area of **early warning**. Our cutting-edge technology in real-time tsunami damage prediction is part of Japan's national arsenal of **early warning** tools. Aside from governments, we also provide a platform/app that tailors delivery of early warning information to businesses keeping track of many locations. We have shared these examples at GP22 as well as at the ARISE Japan-Philippines Knowledge Sharing Sessions.

We interact daily with our local and national government clients in a close collaboration which is an example of **public-private partnership** at the working level.

3.4 Indicate if your company is affiliated with / member of any other global private sector networks such as the UN Global Compact, World Economic Forum (WEF), World Business Council for Sustainable Development (WBCSD) International Chambers of Commerce (ICC), or other private sector network, including of other UN agencies (please specify) (max 100 words each)

UN Global Compact: In 2014, Kokusai Kogyo co-founded the DRR working group in its local network (Global Compact Network Japan) and has since served as co-leader. This DRR working group has more than 140 members at present.

Sandra Wu, Chairperson and CEO of Kokusai Kogyo, currently serves on the UN Global Compact Board. Yoshiko Abe, serving as secretariat of ARISE Japan, is also seconded to Global Compact Network Japan.

International Consortium on Landslides (ICL): Kokusai Kogyo is jointly running the Japanese secretariat of this international organization with ties to academia and UNDRR.

3.5 Please list 3 goals which you would aim to achieve as Board Member of ARISE, specifically within (max 100 words)

a) your 1st year

b) long term

2023/05/31	<p style="text-align: center;">ARISE Board Elections Self-nomination Form (deadline for submission: 21 June 2023)</p>	
PU-BENF		
Revision: 1		
Page 4 of 4		

a) Three goals in the first year of my second term

- I aim to continue to share DRR good practices and innovative technological solutions from Japan, both hard and soft measures, speaking from first-hand, in-depth knowledge.
- I have initiated new dialogue and collaboration with multi-stakeholders, leveraging my professional connections, in my first term. I will continue to ‘spread the word’ about ARISE with the aim to strategically expand our membership.
- I will continue to support ARISE Japan, serving as steering committee member myself, and provide secretariat services for ARISE Japan.

b) Three goals – long term

- I aim to contribute to the implementation and realization of the Sendai Framework, SDGs, and the Paris agreement through my technical expertise and business management expertise in the DRR business sector
- I will lead, by example, the mainstreaming of DRR and resilience considerations into our own organizations
- I hope to contribute to the increase the priority of disaster risk considerations, globally

Note:

Please consider the responsibilities for Board members and the parameters for a Board member to be designated inactive as specified in the Board elections Standard Operating Procedure (SOP).

PROFESSIONAL BACKGROUND:

Company: KTM CHILE.

Date: March 2022 to date

Position: Safety Manager

Functions and responsibilities of the Position: Manage and implement all the actions indicated in Supreme Decree 40, Law 16,744 and its Supreme Decrees. Creating a safe work environment free of work accidents and occupational diseases. The above, under the standards of its parent company in Austria.

Achievements: Creation of the Health and Safety area, according to national policies and international standards.

Company: SCHENCK PROCESS AUSTRAL S.A.

Date: November 2019 to February 2022

Position: Safety Manager in Risk Prevention and Environment for the Andean Region.

Functions and responsibilities of the Position: Manage and implement all the actions indicated in Supreme Decree 40, Law 16,744 and its Supreme Decrees. Creating a safe work environment free of work accidents and occupational diseases.

Achievements: Risk prevention and environmental efforts have been carried out effectively, according to national policies and international standards.

Company: CISCO SYSTEMS

Date: January 2007 to date

Position: Safety Manager for Chile (External Consultant)

Functions and responsibilities of the Position: Health and Safety Management, according to company policies and according to what is indicated by its US parent company. Implementation of business continuity plans according to ISO 22301

Achievements: For the first time in Chile, risk prevention efforts have been carried out, according to US policies and standards and in relation to the legal regulations of that country, adapting this according to their own internal needs.

Company: Merrill Lynch Of America Bank

Date: January 2011 to December 2012. May 2018 to October 2018

Position: Safety Manager for Latin America; Chile, Argentina, Uruguay, Argentina, Peru and Colombia (Reporting directly to the Presidency of the US Occupational Health Corporation)

Functions and responsibilities of the Position: Health and Safety Management, according to the Bank's policies and according to what is indicated by its US parent company. Implementation of business continuity plans according to ISO 22301

Achievements: For the first time in the indicated countries, risk prevention efforts have been carried out, according to the policies and standards of the Bank (USA) and in relation to the legal regulations of each country, adapting this according to their own internal needs.

Non-profit entity: Resilient Cities Foundation

Date: July 2014 to date

Position: President

Functions and responsibilities of the Position: Management of Resilience Projects, Gender Equality, both for the public and private sectors.

Achievements: Creation of a Foundation together with Carlo de Gavardo, where through said Foundation we promote his legacy with Resilience in Chile and internationally.

Company: Precorp Group.

Date: May 2005 to date

Position: CEO

Functions and responsibilities of the Position: Management of Consulting and Training Projects in Risk Prevention, Environment and ISO 22301 Business Continuity, and promotion of the World Health Organization (WHO) Road Safety Decade, Implementation of Gender Management in the private sector.

Achievements: Creation of a leading company in its field, in partnership with Carlo de Gavardo (QEPD), which has made this innovation and entrepreneurship a unique project for the benefit of its clients. Two projects as an example; Consulting and Training in Road Safety for Constructora El Sauce, focused on all its workers who use vehicles at Minera BHP. Comprehensive advice for the formation of the MOVISTAR business continuity area, the first in the Telecommunications sector in Chile.

Company: JP Morgan Chase Bank

Date: February 2013 to May 2018

Position: Safety Manager for Chile with support for Argentina and Colombia.

Functions and responsibilities of the Position: Risk Prevention Management according to the Bank's policies, and according to what is indicated by its US parent company. Implementation of plans and audits in ISO 22301

Achievements: For the first time, risk prevention efforts have been carried out, according to the policies and standards of the Bank (USA) and in relation to the legal regulations of Chile, Argentina and Colombia. Adapting this to your own internal needs.

Company: Nokia SIEMENS NETWORKS

Date: October 2007 to December 2010.

Position: Risk Prevention, Environment and Contractor Control Advisor

Functions and responsibilities of the Position: Management and administration of the area of Risk Prevention and Environment

Achievements: It has created the Risk Prevention and Environment area, with important achievements in management with large clients, such as Movistar and Metro de Santiago

Company: APPLUS – NORCONTROL

Date: May 2005 to March 2007

Position: Project Manager-Consultant-Auditor.

Functions and responsibilities of the Position:

- Management and administration of consulting projects for Occupational Risk Prevention and Ohsas 18001
- Business generation.
- Lead Auditor Ohsas 18001

Achievements:

- It has developed consultancies in at least 20 companies of different lines and/or activities (detail in Annex).
- It has contributed to the certification of companies under provisions of ISO Regulations and carried out pre-certification audits under provisions of ISO Regulations.
- It has been a Consultant for integrated management systems in health and safety, environment and quality.
- It has designed Risk Prevention management systems geared towards business strategies, structuring and aligning purposes of processes/areas and organization in order to improve organizational performance, thereby specializing in activities such as:
 - Identification and analysis of critical processes to structure and optimize the planning of processes and areas of the organization.
 - Design and implementation of methodologies and organizational practices related to risk prevention and its legal aspects, among others, to organizational structures, management indicators, criticality analysis, training needs and staff responsibilities; infrastructure; operational, management and support processes; legal compliance and control of contractors, evaluation of suppliers; equipment maintenance, non-conformity management, corrective and improvement actions.
 - Identification of occupational risk prevention and improvement indicators for management, administrative and operational processes with the purpose of promoting the improvement of organizational performance.
 - Formulation of analysis and preparation of action plans to improve indicators or results.
 - Implementation of contractor control programs and their compliance with legal risk prevention regulations.
- Support in the implementation of Ohsas 18001 in Codelco Chile's El Teniente Division.
- In charge of the technical and logistic direction of work teams.

Company: EMPRESAS CONSALUD S.A. BELONGING TO THE CHILEAN CHAMBER OF CONSTRUCTION

Date: November 2003 to March 2006

Position: National Head of Risk Prevention

Functions and responsibilities of the Position: Management and administration of the Risk Prevention Department, corresponding to Isapre Consalud and Megasalud.

Achievements:

- Reorganization of the risk prevention area.
- Management and reduction of accidents in a company with more than 2000 employees.

Company: SODIMAC HOME CENTER

Date: 2001 to 2003

Position: Risk preventionist in charge of Store

Functions and responsibilities of the Position: Responsible for the management of prevention, reduction of accidents and legal compliance of the store in charge

Achievements:

- Maintenance and optimization of the management system implemented in the company.
- Optimization of critical processes
- In charge of the technical and logistic direction of work teams.

Company: FORUS S.A (Company of the Business Group led by Mr. Alfonso Andrés Swett, Former President of CPC 2018-2019)

Date: 1997 to date

Position: National external advisor for Risk Prevention and Occupational Health

Functions and responsibilities of the Position: Responsible for the company's risk prevention management.

Achievements:

- Decrease in accidents
- Optimization of risk prevention in industrial processes and in the Retail sector.

Other consultancies in Risk Prevention and Environment carried out between 2003 and 2021:

- Advice for the Agricultural Sector for De Gavardo y Compañía. (La Vega and La Vacada Estates, Grape and Vineyard production, among others in the field)
- External consultant in Safety, Health and Disaster Risk Management **Ibis Hotels, Accor, Sheraton, Kennedy Hotel, Hard Rock in Panama, Hotel Santa Victoria in Milan Italy, among others.**
- Advice on the management of control of contractors and training programs for the **WOM Company.**

2. Resume

2.1 ATTACH YOUR CV OR RESUME TO THIS SELF-NOMINATION FORM.

3. Questionnaire

2.1 Please list any affiliation and past or present achievements related to disaster risk reduction / Prevention / Resilience / Corporate Social Responsibility (CSR) / Environmental Social Governance (ESG) (maximum 200 words)

1. In 2013, the first public-private alliance in Chile in DRR was achieved. The above, in the Commune of Talcahuano and other companies: Telefónica Chile, Mall Plaza, etc.
2. In 2014, network DRR projects began with other Chilean companies nationwide. The above, to strengthen community resilience. For example, between 2014 and 2017, Falabella Chile made financial and technical contributions to support the Commune of Peñaflor in the implementation of the UNDRR Resilient Cities Campaign. These types of projects, but on a larger scale, are currently maintained with other multinational organizations, such as: **CISCO, JP MORGAN CHASE BANK, CLINICAS NOVOVISIÓN, UBER LATAM, CODELCO CHILE, MUTUAL DE SEGURIDAD, FORUS S.A, among others: Almost all of them. With presence in Latin America.**
3. Between the years 2013 to 2018, Precorp is part of the business continuity technical work table of the Chilean Banking Association.
4. Precorp is currently working to create an alliance for the DRM of the entire Chilean private sector, this with the Confederation of Production and Commerce of Chile.
5. Promotion and management for training of ARISE URUGUAY, successfully launching the national network, during the Uruguay 2023 Regional Platform.

2.2 Please specify if you have decision-making and support capacities for ARISE within your company in relation to at least one of the four ARISE focus areas (SME resilience, investment, insurance, resilient infrastructure) in

a) Senior Level (maximum 100 words each)

The Precorp company and its strategic allies and clients have the ability to make decisions and support ARISE in its four focus areas.

PRECORP; CISCO; JP MORGAN CHASE BANK; NOVOVISION CLINICS; UBER LATAM; CODELCO; SECURITY MUTUAL; FORUS S.A.; KTM; They are high-level companies with a global presence. Given this, they have the ability to extend the work of ARISE not only regionally, but globally.

b) Technical level (maximum 100 words each)

Precorp is a specialist in consulting, training and research and development services on topics such as: Business continuity (ISO 22,301), disaster risk management, with high technical and institutional capacities.

2.3 Please specify if you have decision-making and support capacities within your company in relation to other key areas such as early warning or public-private partnership at national or local level (100 words)

Precorp has national public-private alliances and specific work areas. This between basic service companies, which are essential for the functioning of a country or a region. Above all, considering Chile, as a country vulnerable to disasters, but very solid in the resilience preparation of the private sector. For example, in Telecommunications there is WOM CHILE, in collaboration with some municipalities and Firefighters, to train them in BCP, so that their own organizations are prepared, so that they can give a correct response, with the least amount of interruptions to their services, which are also volunteers.

2.4 Please indicate if your company is affiliated with or a member of any other global private sector network, such as the United Nations Global Compact, World Economic Forum (WEF), World Business Council for Sustainable Development (WBCSD), Chambers of International Trade Commission (ICC) or other private sector network, including other UN agencies (specify) (maximum 100 words each)

IN THE PROCESS OF JOINING THE GLOBAL COMPACT
IN THE PROCESS OF BEING PART OF CBI

2.5 Please list 3 objectives that you would like to achieve as a member of the ARISE Board, specifically within (maximum 100 words)

a) Your 1st year

b) Long term

IN THE FIRST YEAR:

1.- CREATE A WORK PLAN WITH CLEAR GOALS, FOR EXAMPLE: STRENGTHEN GLOBAL NETWORKS, JOINING OTHER ORGANIZATIONS AND NETWORKS FROM ACADEMY AND CIVIL SOCIETY, WITH A GOAL OF 3 GREAT ALLIANCES FOR LATIN AMERICA AND IF THIS MODEL IS ACCEPTED, GLOBALLY AS WELL .

2.- HOLD 2 PROMOTIONAL MEETINGS WITH HIGH BUSINESS UNIONS IN CHILE AND ANOTHER AT A REGIONAL LEVEL. TO PROMOTE THE STRENGTHENING OF THE NETWORK IN THE REGION, WITH THE SUPPORT OF HIGH-LEVEL MULTINATIONAL COMPANIES

LONG-TERM:

1.- MANAGE AND COORDINATE THE JOINING OF ORGANIZATIONS FROM COUNTRIES THAT DO NOT PARTICIPATE IN ARISE, SUCH AS CHINA OR OCEANIA.

2.- APPROVAL AND DEVELOPMENT OF A SET OF TECHNICAL TOOLS FOR ARISE MEMBERS, WHERE THEY HAVE THE BASE METHODOLOGIES, TO GIVE STRENGTH TO THEIR NETWORKS AND GENERATE VALUE FOR THE MEMBERS.

Experience

Risk Exchange (DIFC) Limited

Founder & Chairman

November 2016 - Present (6 years 8 months)

Risk Exchange (DIFC) Limited, Dubai, UAE (The firm "Risk Exchange") is a regulated entity under the regulation of Dubai Financial Services Authority (DFSA) to carry out insurance intermediation

and insurance management activities under Prudential Category 4 license by Dubai International Financial Centre (DIFC) which is a 100% subsidiary of Risk Exchange International Holdings Pte. Ltd. based in Singapore. "Risk Exchange" is an independent organization with professional's network of reinsurance intermediaries that aims to offer its clients the most innovative risk transfer alternatives and reinsurance solutions in all classes of business. We help clients find the best coverage at the right place that suits their needs and expectations. It aims to provide world-class risk management and insurance services to its global clients under one brand. The entity aims to create a network of risk professionals for mutual benefit. Risk Exchange is the business name for the international operations of the company. Our aim is to leverage the knowledge, contacts, and experience in the insurance and reinsurance sector to serve the growing demand of insurance / reinsurance market globally under a regulated environment. The objective of the company is to be seen as an independent company looking for the best coverage for its clients at the right price from a range of providers providing specialized insurance products

by way of Facultative Reinsurance and Treaty Reinsurance (Insurance Intermediation) from highly rated and financially secured insurance and reinsurance companies. The company is working with a network of business partners across Middle East, Africa, Asia, US, UK, Europe, Central & Eastern Europe (CEE), South East Europe (SEE), Russia and CIS Countries. Such a network would allow the firm to have a distribution channel locally and globally to market itself with a wider network than if it was just operating out of the DIFC.

Arya Insurance Brokerage Company

IBG - Insurance Business Group
Secretary General & Board Member
March 2013 - Present (10 years 4 months)
United Arab Emirates

IBG Membership consists of Chairman / Board Members / Chief Executive Officer / General Manager of Insurance Companies (National & International), Reinsurance Companies (National & International), Insurance Brokers (National & International), Reinsurance Brokers (National & International), Insurance Consultants, Actuaries, Insurance (TPA), and Loss Adjusters registered under the regulation of the Insurance Authority (Central Bank of UAE). Such members shall have the right to vote, elect and nominate for the membership of the Board of Directors. IBG's management confers a Representative Committee consisting of thirteen members, five represent the National Insurance Companies, two represent the International Insurance Companies, three represent the National Insurance Brokers, two represent International Insurance Brokers, and one represents the Loss Adjusting Company. The General Assembly elects the Representative Committee by secret ballot from among its paid members to hold office for a period of two years under the supervision of the Dubai Chamber of Commerce &

Industry. These elected Board of Directors then with an internal vote elect a Chairman, Vice-Chairman, Secretary-General, and Treasurer from its own elected members. IBG provides an excellent forum for assisting its members to increase their visibility and to develop more effective business relationships within the Insurance community. IBG reaches these goals by organizing informative periodical events and conducting workshops/training sessions for insurance professionals on different topics of interest whether from Conventional Insurance or Takaful (Islamic Insurance) while providing informative publications/journals/periodicals while retaining an Annual Membership Directory of Members. The Insurance Business Group (IBG) was established on 8th September 2004 as a non-profit organization under the auspices of Dubai Chamber of Commerce & Industry.

Abdul Karim Yahya Munshi Est - Kingdom of Saudi Arabia

Marketing Manager

October 1992 - December 1993 (1 year 3 months)

Abdul Karim Yayha Munshi Establishment or AKYM Establishment is a single owner, local Saudi company. The Company has a solid assets in terms of client base and business knowledge. Founded in 1948, the company has completed 60 years in Saudi market with strength of 250 fully trained professionals catering to various business sectors.

The company started as an import / export agent of various products required by pilgrims, who come to Saudi Arabia from all over the world to perform their Hajj. This initial exposure gave the company a platform to develop its contacts with the outside world and it was on this firm base that the company built strong and fruitful relationships globally. Presently the company watches the interests of more than 50 companies worldwide in different sectors.

In these almost 60 fruitful years, the company saw closely the rapid development – Economic, Industrial and Social – of Saudi Arabia and from time to time adapted itself to the needs of the hour. In fact the company grew at the same pace as the different sectors of Saudi economy. It was during the boom of OPEC countries two decades back that the company not only consolidated its trading business but also went ahead and fully utilized the opportunities provided by the time.

Tata Steel

Marketing Officer

February 1990 - September 1992 (2 years 8 months)

Jamshedpur, Jharkhand, India

Tata Steel was founded in 1907. Backed by 100 glorious years of experience in steel making, Tata Steel is the world's 6th largest steel company with an existing annual crude steel production capacity of 30 MTPA.

Tata Steel has a balanced global presence in over 50 developed European and fast growing Asian markets, with manufacturing units in 26 countries.

Through investments in Corus, Millennium Steel (renamed Tata Steel Thailand) and NatSteel Holdings, Singapore, Tata Steel has created a manufacturing and marketing network in Europe, South East Asia and the pacific-rim countries. Corus, which manufactured over 20 MTPA of steel in 2008, has operations in the UK, the Netherlands, Germany, France, Norway and Belgium.

Tata Steel Thailand is the largest producer of long steel products in Thailand, with a manufacturing capacity of 1.7 MTPA. It was formerly known as The Tata Iron and Steel Company Limited and changed its name to Tata Steel Limited in 2005.

2. Curriculum Vitae

2.1 PLEASE ATTACH YOUR CV OR RESUME TO THIS SELF-NOMINATION FORM.

3. Questionnaire

3.1 Please indicate any past or present affiliations and accomplishments related to Disaster Risk Reduction / Prevention / Resilience / Corporate Social Responsibility (CSR) / Environmental Social Governance (ESG) (max 200 words)

I was one of the **Speaker** at the **ARISE Constituency session in Jakarta** and would like to take this opportunity to thank the organizing team of **UNDRR** for giving me the honor as one of the members of the United Nations Office for Disaster Risk Reduction (UNDRR) Private Sector Alliance for Disaster Resilient Societies (ARISE) to join this important panel discussion at the ARISE Constituency session.

This is the extract of my speech: As a practitioner of Insurance & Risk Management, it's an opportune time for us to be associated with such a body during this global pandemic which has shattered the entire economies of the world and has influenced almost all business sectors. It will go down in history as one of the years of our lives where we seem to witness our worlds being turned upside down. Although at this juncture it has visibly augmented the importance of Disaster Risk Reduction and its position especially exhibiting the role as a mitigator of economic damage to industries at large paying a heavy price in the end. This pandemic has severely impacted many industries such as Travel, Transportation, Energy, Manufacturing, Retail, and Hospitality, etc. We are involved in insurance business globally and can very well vouch the contribution which comes from UNDRR especially during the escalating privation caused by this pandemic on individuals, businesses, and economies which has further stressed the importance and the role it plays during such calamity. As we know that at the 26th United Nations Climate Change conference (COP26), in conjunction with the United Nations' General Assembly, nearly 200 signatories to the Call to Action for Shipping Decarbonization demanded national governments and international regulators to establish policy frameworks that should ensure the industry to reach the goal of shipping decarbonization by 2050. These policy frameworks should be supported by the intermediate goals of having at least five percent zero emission fuels in international shipping by 2030 while the necessary infrastructure for scalable zero emission fuels and energy sources, including production, distribution, storage, and bunkering, should also be in place by 2030. A number of insurers and reinsurers in cooperation with the UN Environment Programme are working to establish the "Net-Zero Insurance Alliance" (NZIA). The Poseidon Principles for Marine Insurance establish a pioneering framework to engage with the shipping industry and support net-zero insurance. The seven companies (AXA, Allianz, Aviva, Munich Re, SCOR, Swiss Re and Zurich Insurance Group) shared the opinion that the global (re)insurance industry can perform a key role in accelerating the transition to a resilient, net-zero emissions economy, in line with the 1.5°C target of the Paris Agreement on Climate Change. Risk Exchange DIFC Limited being an international reinsurance intermediary is committed to work as per preamble of the UN Environment Programme Financial Initiative's Principles for Sustainable Insurance as the insurance industry's core business is to understand, manage and carry risk. With increasing significance assigned to a forward looking and sustainable business conduct, we are committed to take environmental, social and governance (ESG) factors into consideration during the risk placement processes.

My commitment to social responsibility and contributions to society are commendable. I have undertaken strategic initiatives focused on education, healthcare, and the advancement of the SDGs. Through mentorship programs especially with Emiratis, national's I have actively contributed to the growth and development of aspiring entrepreneurs. My dedication to corporate social responsibility (CSR) has resulted in tangible benefits for communities, underscoring my commitment to making a positive impact on society. I have demonstrated an unwavering commitment to corporate social responsibility and environmental sustainability. My organization actively contributes to social causes, supports local communities, and promotes eco-friendly practices. By integrating sustainability into my business model, I inspire others and sets a positive example for the industry.

3.2 Please specify if you have the decision-making and support capacities for ARISE within your company relating to at least one the four ARISE focus areas (SME resilience, investment, insurance, resilient infrastructure) at

a) Senior level (max 100 words each)

As the Chairman of Risk Exchange (DIFC) Limited, to confirm that I possess the necessary decision-making and support capacities within my company to actively participate in and contribute to the ARISE initiative. As the Chairman, I am committed to driving and overseeing the implementation of ARISE's objectives and activities within our organization. At a senior level, I have the authority and responsibility to make crucial decisions related to ARISE's objectives and activities within Risk Exchange (DIFC) Limited. I understand the significance of SME resilience, investment, insurance, and resilient infrastructure as the four focus areas of ARISE, and I am committed to incorporating these considerations into our organizational strategies and decision-making processes. I fully endorse the ARISE initiative and its core objectives, recognizing the importance of building resilience within SMEs, fostering investment opportunities, enhancing insurance coverage, and promoting resilient infrastructure development. I am dedicated to engaging in collaborative efforts, sharing best practices, and working towards achieving the desired outcomes within my company and the broader ARISE community.

b) Technical level (max 100 words each)

With my extensive background and expertise in both civil engineering and risk management and insurance, I possess a unique skill set that aligns perfectly with ARISE's focus areas. I hold a Professional Doctorate in Risk Management and Insurance, which enables me to comprehend and navigate the complexities associated with managing and mitigating risks in various domains. I assure you that as the Chairman of Risk Exchange (DIFC) Limited, I will actively champion and promote ARISE's vision, advocating for the integration of its objectives within our company's policies, strategies, and decision-making processes. I am committed to mobilizing the necessary resources, fostering partnerships, and engaging with stakeholders to drive the successful implementation of ARISE initiatives. Furthermore, at a technical level, my background as a civil engineer equips me with the necessary technical knowledge to evaluate and assess the risks associated with infrastructure development and resilience. This expertise enables me to contribute meaningfully to the technical aspects of ARISE's focus areas, particularly in terms of resilient infrastructure.

3.3 Please specify if you have the decision-making and support capacities within your company relating to other key areas such as Early Warning or Public-Private Partnership at national or local level (100 words)

As the Chairman of Risk Exchange (DIFC) Limited, that I possess the necessary decision-making and support capacities within my company pertaining to various key areas, including Early Warning and Public-Private Partnership (PPP) at both national and local levels. With utmost confidence, I affirm that Risk Exchange (DIFC) Limited is fully committed to the goals and objectives set forth by ARISE, and we are dedicated to actively engaging in efforts that contribute to disaster risk reduction, resilience building, and sustainable development. Our company recognizes the significance of collaboration and the importance of forging strong partnerships with governmental, non-governmental, and private sector entities to address the challenges posed by disasters and to foster a culture of resilience. In my role as Chairman, I possess the authority and decision-making powers necessary to ensure the full participation of Risk Exchange (DIFC) Limited in ARISE activities. I am vested with the responsibility of aligning our company's strategic priorities with the goals of ARISE, ensuring the allocation of adequate resources, and overseeing the implementation of initiatives related to Early Warning and PPPs. I am empowered to represent Risk Exchange (DIFC) Limited in high-level discussions, negotiations, and partnerships, both nationally and locally, to foster effective collaboration and cooperation in the field of disaster risk reduction. I am committed to leveraging my influence and network to facilitate the exchange of knowledge, best practices, and innovative approaches that will contribute to the overall success of ARISE. I understand the significance of the Early Warning system in minimizing the impact of disasters and saving lives. Risk Exchange (DIFC) Limited is dedicated to investing in state-of-the-art technology, infrastructure, and skilled personnel to strengthen early warning capabilities. We will actively collaborate with relevant stakeholders, including government agencies, research institutions, and civil society organizations, to enhance early warning systems and facilitate the dissemination of timely and accurate information to vulnerable communities. Moreover, I recognize the pivotal role that Public-Private Partnerships play in disaster risk reduction and resilience building efforts. We are committed to fostering partnerships with governments, international organizations, and other private sector entities to develop innovative financial mechanisms, risk transfer solutions, and capacity-building programs. By leveraging our expertise, resources, and networks, we aim to promote sustainable and inclusive development practices that enhance resilience at all levels. I assure you that Risk Exchange (DIFC) Limited is dedicated to the principles and objectives of ARISE and will actively contribute to its success. We are committed to sharing knowledge, collaborating with relevant stakeholders, and undertaking concrete actions to reduce disaster risks and build resilient communities.

3.4 Indicate if your company is affiliated with / member of any other global private sector networks such as the UN Global Compact, World Economic Forum (WEF), World Business Council for Sustainable Development (WBCSD) International Chambers of Commerce (ICC), or other private sector network, including of other UN agencies (please specify) (max 100 words each)

Risk Exchange (DIFC) Limited is a MEMBER OF WORLD ECONOMIC FORUM (WEF), MEMBERSHIP APPLIED FOR UN GLOBAL COMPACT, MEMBER OF INSURANCE BUSINESS GROUP (IBG) UNDER THE AUSPICES OF DUBAI CHAMBER OF COMMERCE & INDUSTRY, MEMBER OF THE EMIRATES INSURANCE ASSOCIATION, AND THE GULF INSURANCE FEDERATION. ADVISORY BOARD DIRECTOR OF ALL INDIA ASSOCIATION OF INDUSTRIES (AIAI), MEMBER OF THE INDIAN COUNCIL OF FOREIGN TRADE, MEMBER OF INDIAN ECONOMIC TRADE ORGANIZATION & MEMBER OF CEO CLUB NETWORK.

3.5 Please list 3 goals which you would aim to achieve as Board Member of ARISE, specifically within (max 100 words)

PU-BENF		
Revision: 1		
Page 5 of 5		

a) your 1st year

b) long term

As a Chairman of **Risk Exchange (DIFC) Limited** and a **Board Member of ARISE**, my goals within the first year and in the long term would depend on the specific strategic direction and priorities of ARISE. However, I can provide you with three general goals that align with the objectives of an organization like ARISE:

First Year Goals:

1. **Strategic Partnerships:** Develop and foster strategic partnerships with other organizations, governments, and stakeholders to enhance ARISE's reach and influence. Identify potential collaborators and establish mutually beneficial relationships that can contribute to ARISE's mission and objectives. These partnerships could involve financial institutions, regulatory bodies, technology providers, and other relevant stakeholders in the risk management and insurance sectors.
2. **Innovation and Digital Transformation:** Promote innovation and digital transformation within ARISE and the wider risk management industry. Identify emerging technologies and trends that can drive efficiencies, improve risk assessment and management, and enhance customer experience. Encourage ARISE to adopt advanced analytics, artificial intelligence, and automation to streamline operations and deliver cutting-edge solutions to its members and clients.
3. **Thought Leadership and Advocacy:** Establish ARISE as a thought leader and advocate for best practices in risk management, both regionally and globally. Encourage active participation in industry events, conferences, and forums to share knowledge, insights, and expertise. Collaborate with industry experts, policymakers, and regulators to shape policies and regulations that promote sustainable risk management practices and address emerging challenges.

Long-Term Goals:

1. **Market Expansion:** Facilitate the expansion of ARISE's operations and influence into new markets and regions. Identify growth opportunities, assess market potential, and develop strategies to enter and establish a presence in these markets. This expansion could involve partnerships, acquisitions, or organic growth to broaden ARISE's member base and increase its market share.
2. **Product and Service Diversification:** Drive the development and diversification of ARISE's product and service offerings to meet the evolving needs of the risk management industry. Conduct market research and gather feedback from members to identify gaps and opportunities. Introduce new products, customized solutions, and value-added services that address emerging risks and provide innovative risk management solutions.
3. **Talent Development:** Foster a culture of talent development and knowledge sharing within ARISE. Invest in employee training, professional development, and knowledge-sharing programs to enhance the expertise and capabilities of the ARISE team. Encourage a collaborative and inclusive work environment that attracts top industry professionals and nurtures a culture of innovation and excellence.

These goals should serve as a starting point for your role as a Board Member of ARISE, and I can further refine them based on the specific vision and objectives of the organization with the direction of the Board.

Note:

Please consider the responsibilities for Board members and the parameters for a Board member to be designated inactive as specified in the Board elections Standard Operating Procedure (SOP).

2. Curriculum Vitae

2.1 PLEASE ATTACH YOUR CV OR RESUME TO THIS SELF-NOMINATION FORM.

3. Questionnaire

3.1 Please indicate any past or present affiliations and accomplishments related to Disaster Risk Reduction / Prevention / Resilience / Corporate Social Responsibility (CSR) / Environmental Social Governance (ESG) (max 200 words)

Following the COVID-19 pandemic lockdown in Kenya in 2020, IIA launched an immediate COVID Survival Program to support Micro, Small and Medium Enterprises (MSMEs) with business continuity. IIA partnered with funders to scale the program beyond Kenya to over 10,000 MSMEs.

Recognizing the vulnerability of MSMEs to disasters at the onset of the COVID-19 pandemic, and therefore the need for a sustainable mechanism to build resilience, IIA launched the MSME Risk Resilience Initiative in October 2020 to strengthen the capacity of MSMEs in mitigation, preparedness, response and recovery from different disaster impacts.

The three phased planning initiative is guided by the priority actions of the Sendai Framework for Disaster Risk Reduction 2015-2030:

- * Phase 1 - Dialogue Series; Convened over 50 diverse stakeholders to deliver 6 dialogue and 2 Ask-An-Expert sessions. Engaged over 200 MSME participants and collected views and disaster risk-related data.

- * Phase 2 - Implementation of recommendations made in Phase 1; Undertaking disaster management capacity building among MSMEs, Training of Trainers. Engaging public and private sector to sensitize and champion action. Building IIA technical skills and joined ARISE Network to enhance collective impact.

- * Phase 3 - Implement the strategy for an agreed MSME Risk Resilience Framework.

3.2 Please specify if you have the decision-making and support capacities for ARISE within your company relating to at least one the four ARISE focus areas (SME resilience, investment, insurance, resilient infrastructure) at

a) Senior level (max 100 words each)

Disaster Risk Reduction is central to IIA's strategy. Our key strategic thematic area of focus is MSME Resilience, with 5 sub-thematic pillars: Disaster Risk Management, Agriculture and Food, Gender Equity and Social Inclusion, Environmental Sustainability and Climate Action, and Innovation and Infrastructure.

To ensure effective strategy implementation, IIA has invested in training part of its senior team (a Board Member and the Country Manager) in Disaster Risk Management. The organization has also

2023/05/31	<p style="text-align: center;">ARISE Board Elections Self-nomination Form (deadline for submission: 21 June 2023)</p>	
PU-BENF		
Revision: 1		
Page 3 of 4		

convened a working group (which includes a subject matter academic expert and a former UNDRR team member) to shape our focus and positioning in championing Disaster Risk Reduction.

b) Technical level (max 100 words each)

IIA's technical expertise in Disaster Risk Reduction is extensive:

- * MSME Ecosystem expertise, with convening power and access to primary and secondary MSME DRR data.
- * Disaster Management Executive Education across the organization: Board, Senior Management and Implementation Team.
- * A certified Training of Trainers team in Kenya and Ghana.
- * Accessibility to a diverse team of DRR experts globally (individuals and organizations).
- * Advocacy and policy engagement: Published advocacy media articles and rallied diverse experts to input Kenya's draft Disaster Management Bill No.14 of 2021.
- * Ability to leverage IIA's markets (Ghana, Senegal and Mauritania) among other regional countries.

3.3 Please specify if you have the decision-making and support capacities within your company relating to other key areas such as Early Warning or Public-Private Partnership at national or local level (100 words)

IIA has great convening power. We have established a diverse global network of DRR contacts in the public and private sectors. So far, we have rallied more than 50 organizations and individual experts to deliver eight (8) DRR awareness sessions.

In addition, IIA is supported by a small working group who comprise of:

- * US-based and Kenya DRR Professor
- * Social entrepreneur with extensive UNDRR experience in Kenya and Geneva
- * Kenyan MSME ecosystem builder with Disaster Management Executive Education
- * IIA Country Manager and MSME Engagement Lead, both with Disaster Management Executive Education and Training of Trainers Certification.

3.4 Indicate if your company is affiliated with / member of any other global private sector networks such as the UN Global Compact, World Economic Forum (WEF), World Business Council for Sustainable Development (WBCSD) International Chambers of Commerce (ICC), or other private sector network, including of other UN agencies (please specify) (max 100 words each)

Invest in Africa core values are Partnerships, Innovation, Value People, Integrity, Transparency and Teamwork – abbreviated as PIVITT. In line with these values, IIA extensively seeks effective partnerships and networks to advance its mission of empowering MSMEs to create sustainable jobs, and purpose of creating prospering African economies.

To this end, IIA is affiliated to the Aspen Network of Development Entrepreneurs (ANDE) and Association of Startup and SMEs Enablers of Kenya (ASSEK). IIA is keen to learn and leverage new networks and form new strategic affiliations following our recent ARISE membership.

3.5 Please list 3 goals which you would aim to achieve as Board Member of ARISE, specifically within (max 100 words)

a) your 1st year

b) long term

My First Year Goal: To raise awareness: Drive an MSME awareness campaign, and mobilize key and pivotal private sector players within the MSME ecosystem to make a commitment towards building enterprise resilience. Expected Outcome: Showcase MSME engagement and DRR awareness; create DRR-focused partnerships.

My Long-term Goals: To make significant contribution at organizational and individual level towards progressing the ARISE Mission, by making effective effort towards all of the ARISE Five Commitments: Raise Awareness, Influence, Share Knowledge, Catalyse and Implement. Expected Outcome: IIA's direct, consistent and tangible contribution to the UNDRR report on progress towards Sendai Framework.

Note:

Please consider the responsibilities for Board members and the parameters for a Board member to be designated inactive as specified in the Board elections Standard Operating Procedure (SOP).

Vice Admiral Alexander Patiño Pama AFP (Ret.)

Vice Admiral Alexander Patiño Pama AFP (ret.) is a retired Vice Admiral of the Armed Forces of the Philippines and served as the 32nd Flag Officer-in-Command, Philippine Navy (Navy Chief) prior to his retirement in December 2012. He is a member of the Philippine Military Academy (MATAPAT) Class of 1979 and joined the Philippine Navy upon graduation in 1979.

Currently, he is:

The **Co-Chair of the Board of Directors of ARISE-Philippines**, a private sector alliance committed to assisting the United Nations Office for Disaster Risk Reduction (UNDRR) in support of its efforts for the attainment of the Goals of the Sendai Framework for Action. As co-chair, he has led various initiatives such as but not limited to:

- The development of a strategic and operational framework to harmonize and synergize private sector advocacies and activities on DRR. This was done by utilizing a two-prong approach through the three Work Themes (WT) and four Priority Areas (PA) to systematically and effectively achieve the targets and goals of Sendai Framework for DRR;
- Targeted recruitment to attract quality Network members and partners to further enhance the individual and collective capacities of partners for a more robust DRR and Resilience efforts;
- Lead the Network activities and advocacies in pushing for the implementation of disaster risk reduction and management and resilience as a business strategy, and investing in disaster-resilient infrastructure, technologies, and practices;
- Initiated and pursued the implementation of bilateral and tri-partite activities with ARISE India and Japan.

Concurrently, he is also the Consultant for Disaster Resilience of **SM Prime Holdings Incorporated** and has led the formulation and implementation of the Concept of Operations (ConOps) of the company's Resilience Center and the institutionalization of the Group of Companies' Incident Command System during emergency situations.

He is likewise a **Consultant** to the **National Resilience Council**, a science and technology based public-private partnership that supports government, communities, the academe and private sector in advancing the attainment of disaster resilience.

Vice Admiral Pama is also the **Chairman of the Board of COCOGEN Insurance Company**, a non-life insurance company.

Member of the Board of Directors/Trustees of the following:

- **Oscar M. Lopez Center for Climate Change** – a private sector non-profit organization to enhance support for research and innovative solutions towards Climate change adaptation and disaster risk reduction
- **Central Philippine University Board of Trustees** – a leading private University in Iloilo province in central Philippines
- **RestartMe Foundation** – a wholesale micro-finance non-stock, non-profit organization providing calamity assistance loans to through MFI members whose portfolios have been compromised by disasters and calamities
- **COCOLIFE (UCPB) Insurance Company** – a local life insurance company in the Philippines

Former **Adjunct Professor** at the **Asian Institute of Management's** Executive Master in Disaster and Crisis Management, and

Visiting **Lecturer** at the **Ateneo de Manila University's** Master's Degree in Disaster Risk Reduction and Resilience.

Post Retirement from the AFP:

Executive Director of the National Coast Watch Council (NCWC) Secretariat at the Office of the Executive Secretary, Office of the President of the Philippines in 2013 to 2014 with the rank of **Undersecretary** at the Office of the Executive Secretary, Office of the President of the Philippines. As the Executive Director of NCWC, he was instrumental in the initial organizing and building up the Council and the National Coast Watch Center, the agency mandated to oversee the Philippine Maritime security and domain awareness.

Executive Director National Disaster Risk Reduction Council (NDRRMC) and concurrently the Administrator, Office of Civil Defense (OCD), under the Department of National Defense with the rank of **Undersecretary** with the following mandate and accomplishments until his retirement in June 2016 with the following mandates and accomplishments among others;

- Integrate, supervise, coordinate, and harmonize government efforts in the conduct of Disaster Risk Reduction and Management of the various government agencies and other stakeholders to reduce risk and mitigate the effects of man-made and natural calamities and disasters.

- Served as Philippine Representative to the ASEAN Committee on Disaster Management (ACDM) and the Board of Governors of the ASEAN Humanitarian Assistance (AHA) Center.

- Instituted the Pre-Disaster Risk Assessment – Action Protocols and Programs (PDRA- APP), a system and a process that led to a more effective government and multi-stakeholder Disaster risk reduction and management leading to significantly reduce casualties and damage to properties due to calamities and disasters that occurred in the Philippines.

- Co-led the Philippine Team in crafting of Philippine position on DRR (Disaster Risk Reduction), its presentation to and negotiating for its inclusion in the United Nations Framework for Disaster Risk Reduction 2015-2030 in Sendai, Japan in 2015.

- Was a leading Philippine delegate, session panelist and presenter in the World Humanitarian Summit in Istanbul, Turkey in May 2016 for a more synchronized and robust Government – Private sector, and Civil-Military cooperation in Disaster Risk Reduction efforts.

As Flag Officer in Command, Philippine Navy (FOIC, PN), 2011-2012

- Implemented and institutionalized improved systems and processes in the Navy in order to organize, train, equip and maintain and deploy Naval forces to perform its mission and mandate.

- Pursued the Crafting and implementation of the revitalized modernization program of the Philippine Navy that institutionalized Capability build-up, Capacity enhancement, and attainment of Credibility for a Strong and Credible Navy.

- Led the planning, programming and implementation of the Navy's Humanitarian Assistance/ Disaster Response Operations during calamities and disasters

Training and Education:

- Naval Command Course at the US Naval War College in Newport, Rhode Island, USA
- Naval Command and General Staff Course in Naval Education & Training Command – preparatory course for Naval Command and Management
- Post graduate course in National Security at the Christian Albrechts University, Kiel Germany
- Earned units in Masters of Business Administration at the Ateneo de Manila University and is an MBA candidate pending completion of thesis requirements.
- Philippine Military Academy – Bachelor of Science

3.2 Please specify if you have the decision-making and support capacities for ARISE within your company relating to at least one the four ARISE focus areas (SME resilience, investment, insurance, resilient infrastructure) at

a) Senior level (max 100 words each)

As the Co-Chair of ARISE-Philippines, I have spearheaded and facilitated the implementation of various activities of the Secretariat and the network members. In terms of decision-making and support capacities for ARISE Philippines, I have led the development of the strategic framework emphasizing the transforming while performing initiatives supported by the operational framework that is led by network members for various work themes and priority areas aligned with ARISE Global and Sendai Framework targets.

In SM Prime, I led the crafting and supervised the implementation of the Enterprises Disaster Risk Reduction and Resilience Policy and Framework.

b) Technical level (max 100 words each)

My efforts and expertise have been instrumental as I led the formulation of the Concept of Operations (ConOps) of the company's Resilience Center's Command Center. In addition, as a DRRM expert, I have also introduced the Incident Command System, a standardized approach to organize the command, control, and coordination during emergency situations. It gives actors and responders from different agencies a common hierarchy to work within.

I have also facilitated the development of the SM Business Continuity Program which is focused on MSMEs capacity building to ensure continuity of services.

3.3 Please specify if you have the decision-making and support capacities within your company relating to other key areas such as Early Warning or Public-Private Partnership at national or local level (100 words)

As the Resilience Consultant of SM Prime Holdings, I have been closely working with Manila Observatory on the initiative of providing its malls across the nation for the Automated Weather Station (AWS) facilities that could help in monitoring weather conditions. Further, I also initiated five-year projects on High Definition Clean Energy, Climate, and Weather Forecasts for the Philippines" Project in partnership with the Manila Observatory.

Likewise, on behalf of SM Prime, I facilitated a partnership with the Galing Pook Foundation, an NGO, that influence and awards Local Government Units for best practices in community programs addressing DRR and resilience among other good practices.

3.4 Indicate if your company is affiliated with / member of any other global private sector networks such as the UN Global Compact, World Economic Forum (WEF), World Business Council for Sustainable Development (WBCSD) International Chambers of Commerce (ICC), or other private sector network, including of other UN agencies (please specify) (max 100 words each)

SM Prime Holdings chairs the UNDRR-led Private Sector Alliance for Disaster Resilient Societies (ARISE), which actively supports and contributes to the attainment of the targets of the Sendai Framework for DRR and the UN Sustainable Development Goals (SDGs).

The company has integrated its sustainability pillars with the principles of the SDGs, the Task Force on Climate-related Financial Disclosures (TCFD), and the Sendai Framework for Disaster Reduction (2015-2030). Additionally, SM Prime Holdings is affiliated with the UN Global Compact, demonstrating its commitment to sustainable and socially responsible policies. The company has established partnerships with various UN entities including UNDRR, UNDRR-GETI, UN Women, UNEP, UNDP, and UNICEF, showcasing its ongoing dedication to collaboration with the UN and its agencies.

3.5 Please list 3 goals which you would aim to achieve as Board Member of ARISE, specifically within (max 100 words)

- a) your 1st year
- b) long term

In my first year, to:

1. **Enhancing Private Sector Engagement:** Foster closer collaboration between the private sector, government agencies, and other stakeholders to enhance disaster resilience.
2. **Promoting Best Practices:** Encourage the adoption and implementation of best practices in disaster resilience within the private sector to further raising awareness, providing guidance, and sharing best practices and success stories.
3. **Advocacy and Policy Influence:** Advocate for policies and regulations that create an enabling environment for private sector investments in DRR and resilience.

In the long term, to:

1. **Scaling up Private Sector Commitment:** Encourage more businesses across various industries and regions to join ARISE and commit to integrating DRR and resilience into their core operations.
2. **Influencing Global DRR Agenda:** Strengthen ARISE's role as a key voice in shaping the global agenda for DRR and resilience. Advocate for more private sector contributions in international forums, conferences, and policy discussions.
3. **Global Collaboration:** Strengthen global collaboration among private sector organizations and alliances to address transboundary challenges by sharing experiences, knowledge, and resources across borders.
